Bigamist Defrauded Many of Wives; Usually Joined Church in Home He Visited, According to Police

(BY A. P. NIGHT WIRE.)

LOS ANGELES, March 13.—Confessing that he has had eleven wives, some of whom he does not even remember by name, Moore, 32 years old, alias George S. Melrose, is charged with bigamy and embezzlement, local police announced today. Moore admitted defrauding several women of money, police say. Moore is charged with embezzling from his last wife, Miss Harriet Evans, now a school teacher in Northern Indiana town. He is said to have defrauded her of \$1,000.

Moore was active in several parts of the country. Some of his names he could not remember. As Howard Wilson he married a girl named Gertrude in Findlay, O. He married Gertrude and married Laura Shields at Spokane, Wash. As J. H. Vaughn he married Forest Johnson of David City, Neb. And then he married Helen Hardgrave at Augusta, Kan.

As Howard Wilson, Moore said he married Irene Hale three years ago, in Chicago. He met her through a marriage bureau and she came from Southern California. Moore deserted her, taking \$1,500 of her money, detectives say he confessed.

JOHNSON SPEWS VENOM AND INVECTIVE IN ATTACK ON FOUR-POWER TREATY.

Hiram Ignores People to Block Senate Consents to Vote Today on First of Proposed Pacts of Armament Limitation Meeting

(BY A. P. NIGHT WIRE.)

WASHINGTON, March 13.—Opponents of the four-power Pacific treaty loosed another series of broadsides against the pact today in the Senate, but slackened their onslaught just before adjournment to accept a unanimous-consent agreement for a vote tomorrow on the first of the proposed amendments.

Senators Johnson of California and Borah of Idaho, both Republicans, took the lead in the all-day attack, the former declaring ratification of the treaty would be a "national surrender" under a threat of danger from the Anglo-Japanese Alliance and the latter asserting that the proposed four-power arrangement would transfer to the Pacific the old balance-of-power system that dominated Europe for centuries.

THIEFS MAKE RICH HAULS; CASH, GEMS LOST BY VICTIMS

Hod-up men and burglars plundered business places and residences last night, securing cash, jewelry and clothing totaling \$5,000.

Two armed bandits held up the Standard Oil station at Ninth and Wall streets, taking \$700 from E. J. Kohn of 5336 1/2 La Mirada street, a collector, and \$15 from G. H. Gray of 982 South Ardmore street, station manager. The hold-ups occurred in an automobile. Detective Sergeants Zeigler and Ballentine were detailed to make an investigation.

A drug store at 1199 North Western avenue was robbed by two armed men and \$130 taken from the cash register. H. C. Fehr and G. H. Zimburg were in the store at the time. The bandits are believed to be the same who robbed several other drug stores in the west end of the city during the last week.

VISITOR IS ROBBED.
Sidney George Healey of San Francisco, stopping at a Spring-street hotel, reported that his room was entered and \$100 in cash taken, a revolver with ten bullets in the handle, clothing, pension papers, Canadian army pay books and deeds to a mine in placer country.

Pass-key burglars took jewelry and clothing valued at \$125 from the home of J. R. Stephens, 489 East Fourth street. The stockroom of the Knickerbocker night school, 409 South Hill street, was broken into and \$1,000 in cash, 1,138 Mignone street, he reported to Constable Station.

LIBERTY BONDS STOLEN.
P. J. Walsh of 1113 South Flower street reported that four Liberty Bonds of the third issue were stolen from his trunk.

Jewelry and clothing valued at \$1,000 were stolen from the residence of C. F. Mallory, 1138 Mignone street, he reported to Constable Station.

Mary Cunningham of 815 Waterloo street, reported that the screen of a rear door was cut by burglars, who ransacked the place and took \$400 worth of jewelry and clothing valued at \$125 from the home of J. R. Stephens, 489 East Fourth street.

GEN. SMUTS BACK FIRED ON.

Allies Premier Escapes Hail of Shots.

South African Government Forces Steadily Driving Back Strikers.

(BY CABLE-EXCLUSIVE DISPATCH.)
JOHANNESBURG, March 13.—Gen. Jan Smuts arrived at Johannesburg at 11 o'clock Saturday night after an exciting dash through the revolutionary lines. The situation is still one of widespread and active fighting, but the government forces are steadily pressing in from Benoni, Breakers and Springs in the east, and from Krugersdorp in the west, while the strikers are falling back stubbornly but surely.

An official communique made public this morning states that 2,500 strikers have been captured and the casualties have not been determined. The excitement is still at fever heat at Johannesburg, where the erection of barricades and the organization of the city for defense are proceeding.

JOURNEY WAS PERILOUS.
Gen. Smuts's journey was the most thrilling incident of the insurrection. He arrived at Kimberley from Cape Town by special train. At Kimberley three high-powered automobiles were waiting him. In these his party passed by roads and across the country as far as the Potchefstroom without opposition. Near Potchefstroom they were met by a strong mounted escort which had been sent to meet the general. The escort reported that there was a single bridge leading into Booy-

TEXAS OIL MAN ARRESTED.

Seymour E. J. Cox Charged With Using the Mails to Defraud in Connection With Companies.

(EXCLUSIVE DISPATCH.)
NEW YORK, March 13.—Charged with using the mails to defraud, Seymour E. J. Cox, Texas oil man and potash promoter, whose methods of doing business were denounced last October in a statement by the Associated Advertising Clubs of the World, was arrested tonight in Hotel Monterey, where he has been stopping with his wife and son.

Cox, who is 37 years old, was taken by police and postoffice inspectors at the request of Federal authorities in Houston, Tex., who wired that they held a warrant issued there by U. S. Commissioner Douglas on February 28 for Cox's arrest charging him with using the mails to defraud. Cox was picked up in police headquarters and in a few days probably will be sent to Houston.

THE NEW YORK POLICE. They do not know the specific charges against Cox, further than that the warrant charged him with misrepresentation in his advertising literature. They were asked to arrest Cox in connection with a case in which he organized two years ago.

The police said tonight Cox had admitted that since organization of the World, he had taken \$1,100,000 in the sale of stock and other securities. The warrant is said to read that Cox had defrauded people in the United States and had used the mails to do it.

The police said that Cox, who has been living in New York for some time, stopping in the Monterey Hotel and receiving his mail at 121 West Thirty-third street.

He has made New York a sort of headquarters for several years. He has been very active in the oil and potash business, and has been very successful in his advertising. He has been very active in the oil and potash business, and has been very successful in his advertising.

Neighbors Case Delayed.
SAN FRANCISCO, March 14.—Action on the indictments recently voted against Mrs. Minnie Neighbors and Mrs. Rebecca Roseo Arbuckle case, charging perjury, was postponed until April 2, it was announced today by the San Francisco grand jury.

Plans Ocean Flight.
CHICAGO, March 13.—Cuno Rheden, a designer and pilot of airplanes, announced today that he will attempt to make a trip across the Atlantic Ocean in April in a plane which he has spent seven years in planning and building. Three flyers will accompany Rheden on the trip, which he expects to accomplish in less than twenty-four hours.

Billy McIntyre Dies.
KINOSHA (Wis.) March 13.—William T. McIntyre, better known as Billy McIntyre of the minstrel team of McIntyre and Rice and a brother of Jimmy McIntyre of McIntyre and Heath, died today at his Kinosha home. He was 41 years old. A flower boy at Jockey's old opera house in Chicago and graduated to the footlights later as a minstrel.

Dry Raids at Taft.
BAKERSFIELD, March 13.—Nine alleged bootleggers were arrested in McKittick and Taft tonight when a band of thirty West side citizens led by Stanley Abel, chairman of the Kern County Board of Supervisors, and F. A. Hazeltine, chief of the dry forces in Southern California, and other Federal agents made a series of raids.

HIRE BUMS AND HOBOS DRINGS FIVE GORILLAS.

Gotham Missions Akeley Returns from Congo.

Cadgers, Loafers, Panhandlers Trained to Get Dole for Stockholders.

(EXCLUSIVE DISPATCH.)
NEW YORK, March 13.—Several missions for homeless men in this city are conducted on a profit-making basis and maintain small stock companies of picturesque loafers to keep the subscribing public interested in their work, according to Roy F. Gates, superintendent of the joint application bureau, which represents the Charity Organization Society and other large charitable organizations.

A request is to be made to Welfare Commissioner Coker for an investigation of missions which are run as private enterprises for profit, according to Mr. Gates.

LARGE INCOMES.
A few individuals who never render any accounts make large incomes from such missions, verily without the knowledge of persons of excellent standing who are placed on boards and committees of such missions, he said. Private charities which render no accounting collect \$100,000 a year in this State, and absorb most of it in "fees," according to Dr. Charles R. Johnson of Albany, secretary of the State Board of Charities.

Mr. Gates declared one mission in the tenement district of New York has an arrangement whereby it pays regular fees to the crews of sightseeing buses for bringing passengers to the mission, where a series of men "testify" throughout the day to the "wickedness and present reformation."

STAFF OF "TESTIFIERS."
Several of the missions, he said, employ a staff of "testifiers." An able-bodied loafer of questionable voice, vivid imagination and ready tears grows into a star and is likely to be an object of rivalry and need practiced talent, it is asserted. "Testifying" has fairly developed into a profession in recent years. No man can be a successful "bum" without training himself to cry and deliver sensational reminiscences in an ornate style. It is declared. The professional "testifier" and professional loafer have been so occupied the last few years that it is difficult for a man temporarily down and out to get help and a chance to work, it is found.

The private enterprises have been furnished with an unusually large supply of oratorical and theatrical beggars, Mr. Gates said.

CO-OPERATIVE BUREAU.
Last fall 103 bona fide relief agencies, which account for every cent spent, banded together and formed the Co-operative Relief Bureau. The organizations belonging to this bureau are pledged to provide adequately for needy persons in the same time, getting themselves out of the way.

They have discovered, however, that scores of beggars have been exploiting several organizations at the same time, getting themselves out of the way and helped by one society after another. On detection they are sent back to the first organization for food and shelter.

ESCAPING FROM HAUNTS.
Two years ago, according to Inspector Welden, who will arrange for the company and its alluring prospects of the Cox at Realization Corporation. Cox spread lurid literature broadcast throughout Texas and many other States of the Union, the postoffice authorities say, using the mails freely to disseminate a glowing story of the company and its alluring prospects. Investors in its many States and number into the thousands, it is alleged.

When the talons of the law began to close about him, Cox disappeared from his usual haunts about a month ago.

DEWEY HAD MANY BITTER ENEMIES, BELIEVED NEW JERSEY COUNTY PROSECUTOR.

(BY A. P. NIGHT WIRE.)
TRENTON, N. J., March 13.—A number of possible clues were being given today to solve the mystery surrounding the death of William W. Dewey, circus owner, slain with a shotgun in the city of Trenton, N. J., on March 10, 1921.

Some of these clues, Prosecutor Jonathan H. Smith said tonight, lead to the winter quarters of the circus in various parts of the country.

The reports stated, the car had been shot after it crashed through a fence.

WORK ON NEW CLUES.
Police also were working on the report of Chief of Police Gaskill of Mt. Holly, N. J., who said he had his own clues to the case. The type came through Mt. Holly, coming from the direction of Riverside, forty-five minutes after the shooting. The clues were followed by a limousine, he said.

The guilty one hired an assassin, who, for almost a month, used a small closed automobile, watching for the opportunity to kill the showman, in the opinion of County Detective Parker.

"I believe he was slain by an assassin, the member of a mob who was not a professional killer, and who had little liking for the showman, who believed the crime until he believed the coast was clear for his escape," Parker declared.

Rehashed Arguments Against League of Nations Hurdled at Pact.

BITTER ATTACK AGAINST PACT.

Johnson Leads Thin Line of Irreconcilables.

Joins Borah and France in Playing Politics.

Senate Agrees to Vote on Reservation Today.

(Continued from First Page.)

Senators will have departed from it and our record in history will be that of a nation which has failed to stand for its principles.

CHANGE FOREIGN POLICY.

For the second time the Senate is asked to change the foreign policy which has prevailed in the republic since we became a nation. The old familiar arguments ring out again.

That we may be forced today to accept what yesterday we rejected.

From the beginning of the contest concerning the League of Nations, some of us have endeavored to make plain that our position was not one of absolute opposition to the League of Nations.

We neither expect nor wish to live a hermit nation. I believe in consultation and conference among the nations of the earth.

No nation is required for this; no alliance is required for this; no division of effort means to meet aggression; no treaty of the status quo by any nation, so that grouped people will be forever without redress.

It is true that two distinguished members of the Senate were members of the conference. It is obvious from their statements upon the floor that they knew little or nothing concerning its making.

The treaty is presented to the Senate without word of explanation and with a denial of any information.

LONDON CONFERENCE.

Quoting the statement of Senator Lodge, Republican leader, and a member of the arms delegation, that the League of Nations is the "main object" of the treaty, Senator Johnson asked whether it were true that the United States "had something to sell and we were to sell it to accept the price they fixed."

He reviewed the efforts of the London conference to set aside the Alliance and quoted Premier Lloyd George's statement to Parliament regarding "merging of the alliance into understanding including the United States."

"If we credit the assurances solemnly given us by both governments," continued Senator Johnson, "then there is neither threat nor danger nor menace to us in any alliance between Britain and Japan."

He then asked whether we didn't believe their professions and feared they might at some future time join forces against us.

"The fact is Britain had an irrevocable alliance. Her people would not permit its removal. Japan would not consent to its abrogation. They came to Washington."

"TIMES" SETS NEW RECORD FOR WANT ADS.

Greatest Number for February in Forty Years Appeared in This Journal. Competitor Far Outstripped.

All February records for the past forty years were agglomerated when the Los Angeles Times during the month just ended printed the tremendous total of 195,139 separate want ads.

WANT AD GAIN OVER SECOND PAPER.

Beating its own big score of February last year by 2751 want ads, The Times also enormously increased its lead over the second largest paper, as shown by the following tabulation:

"TIMES" LEAD, FEBRUARY, 1921, 27,592 WANT ADS.

"TIMES" LEAD, FEBRUARY, 1922, 30,214 WANT ADS.

Since Times classified advertising is conceded to be a safe barometer of business, the figures for January and February show that local affairs are in a thriving condition. Southern California having transacted more business during the past two months than ever before in the corresponding period.

The figures also show a growing tendency among advertisers to eliminate hit-and-miss methods and to concentrate their efforts in a result-producing medium.

LEAGUE OF NATIONS.

The discussion upon this treaty illustrates the variety of the human mind. The curtain has only just been rung down upon the League of Nations. The storm center there was an obligation not unlike that here implied. The Article X touches so deeply that we are required to act upon the advice of the council, that Article II of the new alliance does all these things, and God help us, we have exchanged a world league of nations for a little league of nations with the dominant factor another race with another civilization.

"Now the label is changed. That which was once Democratic policy has become Republican policy. What I believed menacing and dangerous to the Republic under Democratic rule, I decline to accept under Republican rule."

"If they purpose here to provide merely for consultation of the parties, there is yet something to be done. The communication is for a definite purpose and that purpose is to arrive at an understanding."

"Now, suppose an agreement from an outside power. Communications pass among the parties. The parties reach an understanding and if the agreement be an armed aggression, of course there can be but one conclusion, to meet it and defeat it."

"Our friends on the other side say after this agreement, any one of the parties may 'quit or scuttles and run.' They pretend that there is no legal or moral obligation for subsequent action. There may be no legal obligation, but surely there is some obligation, call it what you will, to execute the treaty agreed upon."

"Who is certain what the treaty means? Certainly not our representatives, for so doubtful of its meaning were they that at once they made endeavors to construe its intent with a reservation. Not our President, for his view was at variance with the views of all the signatories. Perhaps Mr. Balfour, as the press tell us, was equally welcomed in England. Perhaps the Japanese premier, who, speaking of the new alliance, characterized it as a quadruple entente."

"Oh, yes, Great Britain and Japan seem to know what the treaty means. There is the knowledge—and theirs the rejoicing."

Speaking in support of his amendment Senator Robinson, Democrat, Arkansas, declared the committee reservation was intended to tell this is a great document to preserve peace in the Pacific for 1922 years to come."

Senator Lodge observed that, unlike the Russo-Japanese treaty, the provisions for consultation upon aggression was not limited to the League of Nations.

Asserting emphatically that Congress would be morally bound to abide by the judgment of American representatives, he said the President would say to Congress:

"I leave it to you. Congress is free to act upon the measures to be adopted."

"The Congress is free!" the Senator asked. "Congress is in honor bound to carry it out. There is no any doubt about it."

"If that be the correct interpretation," he said, "there's nothing new in this treaty, no departure from the old-established system of diplomatic groupings that has obtained for 2500 years."

History shows, Senator Borah said, that whenever a diplomatic grouping developed, a rival group was formed.

"Whether this new group gives rise to a counter-group or not," continued Senator Borah, "it nevertheless is a group against the outside world. Where is the means to defend against the group? Suppose Russia makes an attack, where is the provision on this treaty for a conference with her?"

"In its beginning, the Triple En-

ALLIES TO HEAR FROM AMERICA.

all no reasonable person could contend that the Allies would be satisfied in turning all the power of Germany over to the United States. Such a contention would have no justification either in morals or in law.

As a matter of fact, the Allies did not at the time make any contention. They drew up a treaty taking account of the terms of the armistice and the provision for payment of the costs of maintaining the armies of occupation. They made the claims for reimbursement of these costs a first lien on the assets of Germany.

In view of these facts this government regards the position suggested in dispatches from Paris as indefensible and absurd. For reasons that are well known to the world, the United States did not ratify the Treaty of Versailles, but that has nothing to do with the present situation. The "machinery of collection" involved.

As for the contention that the United States has not been a party to the Treaty of Versailles, it is to be noted that perhaps the only portions of the Treaty which are of concern to the United States are those respecting boundaries in Europe and such other matters which are of concern to European nations.

It is difficult for this government to understand statements which are made in the United States which claim that the United States has not been a party to the Treaty of Versailles. It has taken that position from the first, and has never wavered from it.

The question of reimbursement for the forces on the Rhine has already been regarded as a matter of course by the United States. HIRAM IGNORES TREATY PLEAS.

(Continued from First Page.)

attempt to ignore and place in utter contempt the crystallized sentiment of a State Hiram Johnson accomplished this today when he made his blatant reiteration of opposition to the League of Nations and alleged the wording enough to focus it on the four-power Pacific treaty.

HUMILIATES STATE.

Johnson's speech has not affected the treaty. It will take something more substantial to damage its standing in the Senate than the warmed-over, high-sounding phrases which he resurrected today. From his days. All that Johnson accomplished was to humiliate his state and prove once more that his self-styled pride over the bridge and to be ready to fire on order. The first car then dashed at breakneck speed over the bridge and got through safely.

PREMIER UNDER FIRE.

The second, wherein Gen. Smuts, was shot at when it approached the bridge. When the car did not stop the strikers opened a heavy fire. At the same time the escort opened on the strikers and the car sped to safety. A tire was pierced by a bullet but none of the occupants was hit.

The fighting is steady at Fordburg, which remains the cockpit of the revolution. Airplane today circling over the town, dropping bombs and dropping bombs, which evidently are effective for numerous Red Cross units can be seen moving about continuously.

STRIKERS REPEATED.

Yesterday morning a large command of strikers was reported at Ellis Park with many killed, wounded and captured when it was surprised and attacked by a detachment of Imperial Light horse. There was heavy action throughout the day at Braamfontein, where the Durban light infantry was hard pressed the strikers. The infantry was supported by howitzers which dropped a rain of shells into the strikers' positions, forcing the latter to retreat slowly to the new school at Vrededorp. The strikers maintained a stout defense in the school, the employer's machine guns against the attackers and to worry the encircling airplanes, which operated at a dangerously low altitude in an effort to cut off the rebels' retreat. The action raged for more than an hour and the casualties were heavy. In the center of the strikers were being captured, over 2000 prisoners being taken. The tide has now turned in the government's favor in the entire locality.

RAILWAY TRACKS BLOWN UP.

There were two successful attempts by the strikers to blow up the tracks of the Pretoria-Germiston railway, but both times the dynamite was quickly repaired. The severe bombing has weakened the determination of the rebels' command in this quarter and the government forces are advancing slowly from Krugersdorp. The forces under Col. Brytenbach have occupied Balfordville.

In the east, the forces under Gen. Vandevanter are heavily engaged with the revolutionaries, who have retired to Benoni. Most of the

MAKES BIG CLEAN-UP.

But in a big like this they make a big clean-up. They can show large crowds made up of a few men unemployed and severely looking for work and a large crowd of revolutionaries who take to this line in periods of unemployment when they can exploit public sympathy. They are out to get people to attend their services, hear the "testifiers" and subscribe. The Co-operative Relief Bureau reports what is known as the work test to unemployed men and beggars who come asking for work.

"The work test is rather severe," said Mr. Gates. "It involves hard work on the woodpile for four hours for 12 cents. Of course, if you don't work you get nothing. It is a work test to unemployed men and beggars who come asking for work."

THE WORLD'S NEWS IN SPANISH

For the benefit of the many Spanish-speaking friends of The Times and the many students of that tongue in Los Angeles, The Times presents herewith a digest of the most important news of the day in Spanish. A working knowledge of correct everyday Spanish is an asset of immense value, especially in the Southwest, as is indicated by the fact that public and private Spanish instructors have more than 15,000 pupils in Los Angeles alone.

Para beneficio de los muchos amigos de habla castellana que tiene el Times, así como también para ayudar a los estudiantes de esta idioma en Los Angeles, el Times tiene el gusto de ofrecer una serie de noticias importantes de última hora, en español. El conocimiento de este idioma, expuesto en una forma sencilla, cuando frasco de uso diario, es de gran valor, especialmente para los residentes del suroeste del Estado. En esta ciudad actualmente hay más de 15,000 personas que se dedican al estudio de la lengua española.

El Jurado Obsequia.

El Agente del Ministerio Público supleno comenzó ayer su investigación para procurar que la Srta. Madalena Obenchain sea convida del asesinato de J. Bolton Kennedy. Calificó al Agente la historia de la noche del crimen, contada por la Srta. Obenchain, de absurda, ridícula e imposible, y presentó a la señora, como una mujer mundana que se impuso a Kennedy sus planificaciones, y que le dió muerte cuando ésta hubo desafiado el amor que ella le ofrecía. Ayer se desahogó en el tribunal el asunto llegaría a manos del jurado dentro de unos cuantos días. En un Trece se desahogaron de sus escuchas.

Una dificultad impidió una cuadrada de oficiales de policía al linchamiento de José Oyallio y Miguel Ramirez, jornaleros mexicanos, como a las 4 de la tarde de ayer, después de que uno de ellos había hecho fuego y matado a Bert Duckworth, velador al servicio del Merchants Hotel. El disparo, calle norte Spring, cerca del Boulevard Sunset, ambos prisioneros fueron maltratados por la muchedumbre de hombres indignados que presentaron al crimen. Estos se consiguieron una soga, y trataron de ahorcarlos los prisioneros a la policía, para obligarlos de un poco de silencio.

Los dos mexicanos fueron metidos en una ambulancia de policía y llevados a gran velocidad a la cárcel de Ciudad.

El cuerpo del Sr. Duckworth fue llevado a las salas mortuorias Patton, donde permanecerá hasta que pase la encuesta. No se sabe el motivo del asesinato.

SOLDIERS, MARINES RULE VLADIVOSTOK.

TROOPS OF THE FAR EASTERN REPUBLIC MARCHING TOWARD CITY.

(BY CABLE AND ASSOCIATED PRESS.)

CHITA (Siberia) March 13.—Vladivostok is without a central government, soldiers and marines are patrolling the streets, and the wealthier inhabitants are fleeing to Japan, according to Far Eastern news service advices from Vladivostok.

Troops of the Far Eastern Republic, with Vladivostok as their goal, are reported to have reached within 300 miles of that city. They have captured a series of towns.

The troops of Merkuloff are reported to be retreating and blowing up the railroad behind them. The dispatch contains an account by Merkuloff's cabinet ministers, and the officers of the late Gen. Kappeler's forces. Merkuloff himself had robbed the Vladivostok government of more than \$1,000,000 gold rubles since last May, and that the rubles were exported to Japan after Merkuloff's resignation.

EXPORTS OF FARM PRODUCTS INCREASE.

(BY A. P. MERRY WIRE.)

WASHINGTON, March 13.—Exports of thirty-two of the principal agricultural products grown in the United States increased 27 per cent in quantity during 1921, but decreased 19 per cent in value as compared with 1920, according to an analysis of official trade statistics made public today by the Department of Agriculture.

The total value of farm and forest products exported was \$2,554,000,000 last year as compared with \$2,458,000,000 in 1920. The value of agricultural and forest products was \$1,476,998,996 in 1921 as compared with \$1,257,998,996 in 1920.

CHARGE THEFT OF DRILL RIG.

Three Arrests Follow Complaint of Well Owners.

Leave Nothing on Lease but Hole in the Ground.

May Have Bought Tools in Good Faith.

(SANTA ANA, March 13.—) The burglary surrounding the complete disappearance of an oil drilling rig and machinery from the lease of the Sunrise Consolidated Oil Company, near El Toro, was solved today with the arrest in Portland, Or., of E. A. Worden and Paul Drummell. Walter Brown, a third member of the trio charged with the theft of the drilling outfit valued at \$10,000 was expected to be apprehended late today by the officers.

The equipment, consisting of an Otis portable drill and derrick combination, a portable forge, blacksmith tools, water tank and hose, and a one-inch galvanized iron water pipe, was said to have been removed on January 11 by Worden, Drummell and Brown.

It was located on the Santa Fe at El Toro, and according to the bill of lading, was billed to Brown and Drummell, Salem, Or., by Brown and Drummell. The bill of lading was signed by Worden.

On January 17 officials of the company of which E. O. Combs is president, visited the field with a group of men who were to finance further operations.

It was the plan of the officials to show their lease and the equipment. When they arrived at the scene of the operations, where 200 feet of hole had already been sunk, there was nothing left but the hole, with the casing cut off at the surface.

A report was made at once to the office of Sheriff Jackson and Under-sheriff E. E. French started an investigation that ended in the arrest of the men said to be involved.

Officers are puzzled now to determine whether or not the equipment was purchased in good faith by the three men or whether it was actually taken from the field by the men as charged in the warrant and complaint telegraphed to Sheriff T. M. Hurst today by Sheriff Jackson.

Found Prima Donna Shows Music Lesson After Disappearance.

(LOCAL CORRESPONDENCE.) REDLANDS, March 13.—Miss Sophie Braslau, contralto of the Metropolitan Grand Opera Company, whose failure to appear here disappointed a large audience of music lovers, is to sing for the first time on the night of Monday, March 20.

In a letter to Mrs. Paul W. Moore, from Los Angeles, she says: "I know that words can not convey to you my distress over the misunderstanding as to dates, to convey to you my horror, actual horror, when I was told Wednesday morning that an audience had sat patiently and waited for me. I alone am at fault, I was so sure that Wednesday was the date that I did not even look at my contracts."

"I shall arrive in Redlands on the 19th, or the morning of the 20th, and if you wish you can exhibit me in the public square as really, truly, being there. I hope the unfortunate occurrence will not brand me as a temperamental prima donna."

THREE DISTRICTS VOTE ON BOND ISSUES.

(SANTA ANA, March 13.—) Orosi, Sultana and Rector school districts are today voting bond issues totaling \$192,000 for proposed additions and improvements of school facilities.

The Sultana bonds are in the amount of \$44,000, the same amount as voted some time ago, but because of irregularities in election proceedings, results were thrown aside and a new election called.

The Orosi bond proposal is from the high school district and calls for an expenditure of \$60,000. The Rector grammar school district is to vote \$18,000.

Staves were closed for a time to permit clerks to visit the polls.

TO IMPROVE STREETS. (EXCLUSIVE DISPATCH.)

POMONA, March 13.—The City Council will take up bids at its session Tuesday afternoon, covering approximately \$100,000 worth of street improvements. The contract will call for paving and in several instances some curbing.

The street improvement program is to be carried out under the Veterans Act, whereby the city pays half, and the property owners on either side of the street, one-fourth.

FACE COURT ON NEW COMPLAINT.

Justice Holds Long Beach Men for "Injuring Jail."

Policeman Uses Gun to Stop Fleeing Suspect.

Child Seriously Injured by Automobile.

(EXCLUSIVE DISPATCH.) LONG BEACH, March 13.—"Injuring a jail," a felony, was the unusual charge upon which E. R. McKee and George Murphy, accused of burglary, were held to answer to the superior court following their preliminary hearing before Justice Brayton this afternoon.

McKee and Murphy, according to the police, were caught in the act of trying to break jail by tearing up a portion of the steel floor with an iron bar pulled from a window. They were held in default of \$1500 bail each.

STOPPED BY SHOTS. Said to have confessed to robbing six suites in the Commander Apartments at 711 West Seaside Boulevard, a grocery store and one or two other places, R. E. Kirman is held in the City Jail today following issuance of a burglary complaint against him.

The charge was sworn to by Mrs. M. E. Julian, one of the guests at the Commander. Kirman was captured shortly before midnight by J. Horner, a deputy sheriff, who was forced to fire three shots at the man to bring him to a halt.

According to the police the prisoner succeeded in throwing considerable stolen property into the street control channel before he was captured.

CHILD INJURED.

Running from an office at 619 Broadway, to cross the street, Lorin Mundy, 8 years old, was struck by an automobile driven by William Cornelius of 247 Lewis avenue at noon today and sustained severe injuries. The child was taken to the Long Beach Hospital, where she was given medical aid by Dr. T. O. Boyd.

According to the police the girl ran out from the office of May Cochran, her grandmother, and directly into the path of the Cornelius car. Her principal injury, according to a preliminary examination, is the fracture of both legs.

ARREST AUTO DRIVER.

Accused of driving an automobile while in an intoxicated condition, E. J. Diamond of 741 E. 10th street, was arrested today. Diamond's machine, according to the police, collided with a car driven by A. Kilgus, owner of 226 Allan street, San Pedro.

John Roberts, of 123 Pacific avenue, was seriously but not fatally injured in the crash, according to the police report.

POMONA WOMAN LEAVES HER HOME.

(EXCLUSIVE DISPATCH.) POMONA, March 13.—Mysteriously disappearing from home at a late hour Sunday night, Mrs. Corine Cook, wife of J. E. Cook, 1029 West Fourth street, mother of three children, is still missing.

Investigation by the police disclosed the fact that she had been seen at church on Sunday, but no trace has been found of her since that time. It is known that she was an extremist on religious matters and had at different times had difficulties with members of the church concerning her beliefs. She is 18 years old and when last seen was wearing a black dress and black velvet hat.

Government Asks Chinese Officers to Make Extra Effort.

(EXCLUSIVE DISPATCH.) POMONA, March 13.—That the American government, through the Legation at Peking, has taken steps to bring to justice the bandits who murdered Dr. A. L. Shelton, medical missionary, whose parents and daughters live in this city, is the information received from the East where Dr. Shelton was even better known than he was here.

According to the Chinese, the American Legation at Peking has asked the Chinese government to take all possible measures to apprehend and bring to trial the bandits who murdered the missionary.

SERVICES FOR PIONEER. (EXCLUSIVE DISPATCH.)

VENTURA, March 13.—Funeral services for the late Robert Dunn were held yesterday from a local undertaking chapel with Rev. J. D. Habbick, of the Presbyterian church officiating. Mr. Dunn was 77 years of age, a native of Edinburgh, Scotland, and had been a resident of Ventura county since 1882. For many years he resided on the Newhall ranch, but some years ago purchased a residence in Ventura, and has been engaged in the nursery business there.

He is survived by three sons, Dr. Thomas Dunn, a physician in Shanghai, China; Robert Dunn of Long Beach; James Dunn of Ventura, and a daughter, Miss Beattie Dunn of San Francisco.

BURGLARS KEEP ALL THE CASH.

Santa Barbara Yegmen Have No Use for Anything but Coin of the Realm.

(EXCLUSIVE DISPATCH.) SANTA BARBARA, March 13.—Bank checks stolen Saturday night from safes in the offices of the Daily News and Great Wardrobe of Santa Barbara by safe crackers, who secured more than \$1000 in cash, were returned through mail by the burglars today.

They had carefully sorted out the checks from the cash, and dropped them into a mail box. The burglars worked at high speed during their visit here, forcing entrance into stores and offices by means of a jimmy, and with a heavy instrument broke into safes.

Claude D. Fish, county employee, met one of the burglars coming from an office. "Good evening, it's sort of chilly these nights isn't it?" said the man, as he slipped passed Fish and disappeared.

The men are believed to be the same who last night stole \$500 in currency from the Broadway Cafeteria, 433 Spring street.

BOOST BUILDING.

State Officials to Address Meeting of Monrovia Citizens.

(LOCAL CORRESPONDENCE.) MONROVIA, March 13.—State Realty Board officials, including C. C. C. Tatum, president; O. A. Vickery, treasurer; William J. Akin, legislative committee chairman, and Harry C. Oliver, chairman of the "Over-You-Own-Home" committee, will be guests of the Monrovia Realty Board at dinner tomorrow evening in starting a home-building campaign for Monrovia.

Bankers and business men have been invited here by the State leaders, who will discuss various plans for reducing California's shortage of 250,000 homes. The dinner is to be held at the Baptist Church. The Chamber of Commerce and local realty board are co-operating in the home-building drive, with the plan in view of making this year the greatest in the city's building history.

Mayor Perdomo Steamship Men to Use City Dock.

(EXCLUSIVE DISPATCH.) VENTURA, March 13.—While no agreement has been concluded, J. M. Honda and B. C. Davidson, of the Nelson Steamship Company of San Francisco, have agreed to report favorably on Ventura as a port of call for their freighters.

With Mayor Dimmick, who is manager of the Ventura wharf, the steamship men had a long consultation yesterday. Details were not made public, but Mayor Dimmick says prospects are good. The Nelson line, including the Humboldt and others, ply between San Francisco and Los Angeles. It is also possible that Huenehue will also be made a port of call.

BONUS FUTURE IS UNCERTAIN.

May be Unable to Secure
Vote in House.

Decision Waits on Word
from Speaker Gillett.

Two Congressmen Against
Law Enactment.

(BY A. P. DAY WIRE)
WASHINGTON, March 13.—Republican leaders were confronted today with the possibility that they might be unable to bring about a vote in the House on the compromise soldiers' bonus bill under suspension of the rules next Monday. With a favorable report of the measure by the Ways and Means Committee promised by Chairman Fordney, they generally were agreed that the bill should be disposed of by the House early next week.

Inability, however, to ascertain whether Speaker Gillett, who is in Florida with President Harding, would entertain a motion to suspend the rules, which would require a two-thirds vote for passage of the bill and would automatically bar all amendments, coupled with reports that he might decline to do so, threw the whole question of procedure into the air.

DELAY DECISION.
Republican members of the Ways and Means Committee, who at a meeting held in the House today, discussed the bill, decided to proceed with their plans for a report of the measure at the meeting of the full committee scheduled for tomorrow. Despite objections to its provisions voiced by Secretary Mellon and Comptroller of the Currency Crispin, held a conference later in the day with members of the Republican steering committee and several others, including Representative Walsh, Massachusetts, acting speaker, and Representatives Fann, Ohio, and Townsend, Iowa.

It was agreed at this meeting not to make a final decision as to procedure until the views of the Speaker could be learned. In case he opposed the suspension of rules program, it was said that the bill probably would be brought up early next week under a rule which, although it would require only a majority vote on final passage, and could be drafted to prevent amendments from the floor, would permit the offering of a motion to reconsider. Leaders said such a motion might be designed to muddle the bill with some drastic amendment which was distasteful to the proponents of the measure as it stands.

TWO OPPOSE BILL.
Other developments of the day in the bonus situation were the issuance of statements by two members of the House—Representative Treadway of Massachusetts, a Republican member of the Ways and Means Committee, and Representative Hawes, Democrat, Missouri—both of whom expressed opposition to the bonus bill, and the announcement by Representative Treadway of Wisconsin, Republican member of the Ways and Means Committee, that he had written Secretary Mellon "replying" to the letter of the Treasury head to Mr. Fordney in which Mr. Mellon declared the bill, if enacted, would involve a "dangerous strain of government credit."

Mr. Treadway declared it was "apparent that an effort to pass a bonus bill at this time is futile unless financed by a sales tax." The people, he contended, want less, rather than more, taxation.

ARGUMENT IS SOUND.
"It was hoped that some satisfactory plan could be found for properly financing payment of a soldiers' bonus without embarrassment to the Federal Treasury," Mr. Treadway's statement began. "The communication received this morning from Secretary Mellon shows that the new suggestion is as unsatisfactory as previous ones. No one can contradict the sound logic of his argument even though some of the statistical information may not be borne out."

The Massachusetts member held that the new scheme having been proved unsound financially, the strong advocates of the bonus, of whom Chairman Fordney is the leader, ought to be satisfied, although unsuccessful, and cease their efforts.

"The President's position is sound," the statement continued. "Either the proposition must be postponed or a sales tax adopted. I favor the former plan."

INVESTIGATOR SEEKING FAMOUS SPOOK RETURNS TO HALIFAX.

(BY A. P. DAY WIRE)
HALIFAX (N. S.) March 13.—Word was received here today that Dr. Walter Franklin Prince, director of the American Institute for Scientific Research in New York, had left the famous haunted house in Caledonia Mills to return to Halifax.

With the investigator departed an army of camera men who had hoped to snap the ghost at play. These unofficial investigators were ordered out of the Macdonald farm house by Dr. Prince last night so that he might occupy the dwelling entirely alone.

Did he see anything? He declines to say.

**WILL TAKE LEPERS
TO CARVILLE, LA.**

(BY A. P. DAY WIRE)
SACRAMENTO, March 13.—Arrangements have been made by the State Board of Health for the removal of a number of lepers from various cities in California, to the Federal leprosy hospital at Carville, La. In order that the cases may be cared for by the United States Public Health Service, it was announced today. The cases to be cared for include twenty at San Francisco, one from Alvin, one from San Jose, six from San Leandro and two from San Diego.

The decision was made, it was announced, to relieve the various counties of the responsibility for these cases.

Citizens Urge Second-Street Improvement.

Resolutions authorizing C. Gordon Whitnall, secretary of the City Planning Commission, to go before the City Council and request a complete survey of the Second-street widening proposition together with the preparation of an estimate of the approximate cost, were unanimously passed by seventy-

five property owners at a mass meeting held in the Council chamber of the City Hall last night.

Mr. Whitnall was also instructed to ask the Council for estimates of the cost of widening Second street between Hill and Main streets, which is a part of the proposed improvement.

It was the general impression of those present that the City Council will act favorably on the request and instruct the City Engineer to undertake the survey and make the estimates.

President Lacy of the commission, presided, and the improvement's consideration was presented by Mr. Whitnall and favorably commented on by Mr. Lacy.

O. M. Souden, president of the United States National Bank, and others. The plan, if consummated, will call for the widening of Second street from Lake Shore Drive to the Second-street tunnel and from the east entrance of the tunnel to Alameda street, down Traction street to the Fourth-street viaduct, thus establishing a first-class thorough artery to Boyle Heights and the Whittier Boulevard, formerly known as Stephen-Jon avenue.

DAILY TRADE TALK.

Pessimist's Day Is About Over; A Few High Spots in Current Conditions.

Fundamental conditions continue to improve. This conclusion is reached in the monthly summary issued by the research department of the Citizens' National Bank, an advance copy of which was made available to Trade Talk yesterday.

The course of the pessimist is almost run, but in making this assertion it must not be understood that we can safely plunge into speculative commodity buying or that we are in another marketing period where an order-taking sales organization is all that is necessary. It is a fact, however, and so discovered by the bank summary, that purchasing power is increasing. In some instances this increase will register quickly in commercial transactions; in others it will not, but the improvement will show generally through a better consciousness of business and therefore more confidence in the future.

FINANCIAL SITUATION.
Some hardening in money rates is recorded. This movement is largely seasonal, but in the present instance it is in keeping with the tendency of the stock market. A minor seasonal tendency begins to set upon call money rates in February. This tendency lasts through April, then declines steadily until August, when it turns into a major upward movement which reaches a peak in December.

A review of the statement of the reporting member banks of the Federal Reserve system discloses three facts: (1) That their aggregate deposits have increased. (2) That their aggregate loans and investments (exclusive of redemptions with the Federal Reserve banks) have increased. (3) That their aggregate reserves have increased.

COTTON.

The present market on cotton is about 50 per cent above an average 1913 price, and were the table given for the years since 1900, it would be seen that the average price for the year 1913 was very close to the average for 1900 to 1910. Wholesale prices for all commodities as an average stand now 45 per cent above the level of 1913. On the face of this data there are therefore no reasons for believing that present cotton prices will allow of any great increase during this season. The supply available, in spite of the decreased acreage and yield of the last crop year, is about normal.

Other elements in the cotton situation which will bear upon prices in the next half year include the very general consideration of the probable acreage and yield for the coming season. The boll weevil infestation will undoubtedly be heavy and should weaken conditions favor the weevil rather than the planter, acreage yields will certainly average much below normal. These facts introduce a ket which will be rather important in the coming months.

LIVE STOCK.

Reliable estimates as to the live stock on farms in the United States on January 1 of this year are as follows, compared with the figures of the year before:

From it appears that there has been no considerable decrease in the available supply of live stock. From the standpoint of consumption, market reports do not indicate an increased domestic demand for meat and meat products, though export demand from Europe has been stronger of late. Holdings in cold storage in practically all meats for the United States as a whole are 50 per cent below those of a year ago and this shortage may account for the recent firmness in the live-stock market.

Stats at hand indicate that buyers of beef will cover requirements for the next three or four months. Hog buyers will assume a conservative attitude as they anticipate a price reaction. The situation in sheep has its seasonal appeal to the buyer and he will

probably cover his requirements through April.

WHEAT AND GOLD.

We are now at the time of year when the speculative element in the wheat market is particularly subject to rumors of crop damage and when estimates and re-estimates of available supplies are set off against probable world demand, with various results. There are those, therefore, who are inclined to view the recent market advance in price as due in a large measure to speculative influences rather than to the basic strength in the situation.

Today, the United States comes within 15 per cent of holding the bulk of the world's supply of money gold. We have more than a relatively low standard are now functioning under the impulse of education we can expect our war-expanded manufacturing capacity to be fully utilized and at a rate which closely parallels the foreigner's progress toward financial stabilization.

BREAK IN STERLING PRICES.

Decline Caused by News of Trouble in India and South Africa.

BY ALEXANDER DANA NOYER (EXCLUSIVE DISPATCH)

THE stock market was not affected; numerous industrial stocks, in fact, advanced a point or more. In the later hours, however, a professional selling movement of considerable force developed, with such consequent reaction as left the day's net changes, excepting irregularly after a total business of nearly 1,000,000 shares. Except for the United Kingdom issues, the bond market held up firm to the close; three or four of the foreign government loans went to new high prices. The movement to depress the sterling rate on the basis of England's colonial complications, will provide a highly interesting test of the real position of international finance. The transatlantic difficulty will affect gold remittances otherwise it is merely one of the familiar labor demonstrations, which will run its course, and which will not apparently include the native miners. It is just now so obscure a problem, whose actual scope is so little understood, that it should logically attract the news with particular interest. How far it should logically affect the fact international finance it is difficult to say.

INDUSTRIAL ADVANCE.

During a good part of the day,

The continually broadening scope of the American investment market was evidenced yesterday by a large offering of French industrial dollar bonds, one of the first of the type to be floated in this country. The issue was \$10,000,000.

999 Promissory Industrial Development Corporation twenty-year 7 1/2 per cent debenture bonds offered at 98, to yield 7.60 per cent, by J. P. Morgan & Co., the National City Company and the Guaranty Company of New York. Bonds are redeemable at 110 from 1937 to 1957 with a reduction of 1 per cent per annum in the premium thereafter. The Promissory Industrial Development Corporation is the American subsidiary of the famous French firm of Schneider & Cie, manufacturers of steel products and electrical machinery. The Schneider concern has no other funded debt payable in dollars, and only 24,000,000 francs funded obligation with 144,000,000 francs in guarantees on indebtedness of subsidiaries. Replacement value of the Schneider plants is estimated at over 1,000,000,000 francs.

Funds realized from this sale will be used for the purchase of stock in which Schneider & Cie are interested. Borrowing dollars gives the company an opportunity to buy these securities advantageously due to foreign market conditions and exchange rates.

NEW UTILITY BONDS.

A new issue of \$7,000,000 Northern Ohio Traction and Light Company general and refunding series A, 6 per cent gold bonds was offered yesterday by the National City Company at 96 to yield 6.30 per cent. The company serves Cleveland, Akron and Canton with electric power, light and traction. Net earnings last year were equivalent to twice interest charges.

DEBT REPORTED.

Annual statement of the Home Telephone and Telegraph Company of Pasadena shows a net loss during 1931 of \$22,981.62. Its operating revenue was \$558,650.55; operating expenses, \$481,037.42; giving net operating revenue of \$77,613.13. Miscellaneous nonoperating revenue amounted to \$941.23. Interest, rent, and other expenses totaled \$131,549.32. The deficit at the beginning of the year amounted to \$25,486.18. The accumulated deficit at the end of the year amounted to \$273,631.60.

Municipal Bonds for
Investment Policy

Too few investors consider the advantages of a carefully planned investment policy. Thoughtful attention to the merits of one class of securities against another over a long period of years invariably reveals the wisdom of selecting only the safest and most conservative.

R. H. Moulton & Company extend to investors a service intensively developed along one line, the expert selection of the best municipal bonds and their desirability for investment over long periods. Safety is our first consideration, then yield, then marketability.

BUSINESS TONE
IS IMPROVING.General Progress is Toward
Return to Prosperity.Investment Banker Looks for
Spring Revival.Price Decline Arrested and
Stable Level Reached.In a general review of the
business and financial situation,
S. W. Strauss & Co., says:

"During the first few weeks of the new year there have been several conflicting tendencies in the general progress of the business and financial world toward a return to a firm basis of prosperity."

"On the one hand there has been a quickening of activity in many lines of production, factories which have been closed have started operating again, security prices have undergone a substantial rise and there has been a widespread increase in confidence and optimism."

"On the other hand there have been a disquieting number of commercial failures—considerably more than were witnessed a year ago; there are still over 100,000 freight cars idle because of lack of shipping, and there is as yet no appreciable decrease in unemployment."

"It would be very hard to strike a balance between the unfavorable factors and those which are more favorable, but on the whole fairly satisfactory progress is being made, and there is a general feeling that the spring months will witness a very considerable revival."

"One of the most favorable indications has in the fact that there has been a fall in prevailing interest rates in the eastern markets, which would encourage borrowing for industrial enterprises."

"Another indication of improved conditions and stability lies in the fact that the rapid price decline of 1931 has apparently been arrested and prices have remained on a comparatively stable basis for the past several weeks."

In many cases there have been slight increases instead of the prevailing decreases which were the rule in 1931. Production of a number of important commodities has shown a very considerable increase in recent weeks. This applies to such commodities as cotton, wool, and steel."

"Retail trade, which showed a very considerable improvement at the time of the holidays in the latter part of 1931, continues to make a better showing than during the larger part of last year. There has also been a general increase in buying evidenced in the automobile business and similar industries which indicates an increase in optimism and prosperity."

"More important than any of the above, perhaps, is the fact that there has been an advance in the prices of some farm products—cattle, hogs, and chickens—there seems to be a better feeling in the agricultural circles and there seems to be a better feeling in the agricultural circles and there seems to be a better feeling in the agricultural circles."

"Undoubtedly the European situation in the most serious economic menace which we face. The financial and commercial status of the European countries has not improved the improvement which has been hoped for, and in fact conditions across the Atlantic have grown worse rather than better. The situation now arises that we are cut off for an indefinite period from the market which formerly furnished our customers, and in view of the inflated currencies of Europe we are more likely to find competition from cheap European products than we are to find a normal market for our commodities in the trans-Atlantic countries."

"Another European influence lies in the fact that foreign borrowing in this country has up the price of capital and tends to retard the normal course of interest rates. One large factor in the recent prevalence of high interest rates has been found in the fact that European loans floated in this country."

ANTITHESIS OF SAMSON SUES FIRM.

Tarzan Finds Doormat on Chest is Useless and Asks Money for Needed Shave.

Elmo Lincoln, who played Tarzan in the motion picture of that name, is suing the Stern Film Company for \$4000 as extra compensation.

He contends it is due because it was necessary for him to shave parts of his body not usually shaved—the chest—for instance. Tarzan was well-known as a hairy gentleman. Since picture directors insist on artificial hairiness Mr. Lincoln shaved and shaved until he encouraged the hair to grow profusely where hair is not supposed to grow on civilized man—parts of the body conventionally covered with raiment. Mr. Lincoln, as Tarzan is now being reduced to celluloid, has no further use for the doormat on his chest. California having a bland climate.

Attorneys for the company deny that the actor was to have gotten extra pay for make-up; that he was paid \$1000 which was ample. It is assumed Mr. Lincoln seeks the \$4000 as an endorsement for picture contracts for the rest of his life. Mr. Lincoln's off-stage name is Otto Lindehl.

TRIAL POSTPONED.

Former Book-Keeper Accused of Embezzlement.

ED CENTRO, March 13.—B. F. Miller, asserted bank embezzler, did not go to trial today as expected owing to the intervention of other cases before Superior Judge Cole. Miller, accused of shortages in his accounts of \$3400, was formerly a book-keeper at the Southern Trust and Commerce Bank. He was arrested in Beaumont, Tex., several weeks ago following his flight from El Centro. He was said.

CITY AUTHORITY HELD OBSCURE.

Attorney Rules Jurisdiction Not Sharply Defined.

Co-operation With State is Advised by Stephens.

Dual Powers Over Utilities Found to Exist.

City Attorney Stephens yesterday sent to the Board of Public Utilities an opinion requested by the board as to the rights of the board and of the State Railroad Commission in the regulation of the service given by the public utility corporations—gas, electric, telephone, street railway—in Los Angeles.

In this opinion the City Attorney points out that under the law "it is not possible to draw a definite line of demarcation" and say "on this side lies the jurisdiction of the city of Los Angeles and on that side the jurisdiction of the State Railroad Commission."

The City Attorney says that he is convinced that in the absence of definite jurisdiction, the matter must be handled, as in the past, as a practical proposition to be dealt with in each case. Over the matter of fixing of utility rates there is no dispute, as the Constitution lodges this power solely with the State Railroad Commission.

POWERS OF CITY. The California Supreme Court, the City Attorney says, has held that the city has service regulatory power when the proposed regulations "come within the general scope of municipal affairs," but that when the particular matter in hand is one of general State concern, the State commission has jurisdiction.

The Board of Public Utilities held a hearing yesterday on the service given by the gas companies in Los Angeles, and the State Railroad Commission will hold a hearing on the same matter tomorrow.

The City Attorney states in his opinion that there is no inconsistency in the fact that both boards are investigating gas service conditions in Los Angeles, but that any probable conflict might only arise when the one of the boards should issue an order or regulation on the matter.

Since 1916 the city board and the State commission have worked in harmony and co-operation in regulating public utilities service in Los Angeles, on both the legal and engineering phases.

AGREEMENT ENDED.

Recently the writers working agreement which has existed to cover these relations was canceled by mutual consent. The question that remains for the board to consider is whether or not it desires to continue to work in co-operation with the State board or to file suits in the courts in an effort to settle the exact jurisdictional question.

A majority of the members of the board favor holding a friendly conference with the Railroad Commission, looking to a continuance of harmonious coadjunction. The board adopted yesterday afternoon Chief Engineer Osborne's report recommending that these joint conferences be held.

OSBORNE'S REPORT.

In this report Chief Engineer Osborne said: "By working in efficient co-operation, the engineers of the California Railroad Commission and the Board of Public Utilities, in one single case, that of the Los Angeles Railway survey, yesterday they made recommendations and the program which created about \$50,000 annually of new money, and which has saved the citizens of Los Angeles, to date, by reason of the 1-cent car fare, approximately \$2,500,000."

"I can say, with complete assurance, that this result was made possible only by the sincere harmony and co-operation between the Board of Public Utilities and the California Railroad Commission, and was accomplished without saving any jurisdictional rights on the part of either body."

"The final results in the recent telephone case, which will be reported to your honorable body in detail, by which a principle was finally embodied for the first time in the history of public utility regulation, showed two things: "First, that through co-operation only could all essential facts be obtained."

"Second, that such thorough and intimate co-operation did not in any measure paralyze the Board of Public Utilities in recommending and receiving a rehearing of the case, and rectifying many matters wherein issue was taken with the honorable California Railroad Commission."

GROWTH TOO FAST.

At the Board of Public Utilities gas service hearing yesterday afternoon, which was called as a result of the large number of complaints from consumers of insufficient gas, representatives of the gas companies present said that the enormous growth of the city had taxed the resources of the plant, but said that every effort will be made during the coming summer to make additions and betterments so that the service next winter will be adequate.

The Los Angeles Gas and Electric Corporation will spend this year, its representatives said, \$7,000,000 in building thirty-two miles of new mains to serve the Hollywood, Boyle Heights, south-western and other sections of the city, so as to increase the sending capacity of the plant from 70,000,000 cubic feet daily, the maximum this winter, to 101,000,000 cubic feet. The Southern California Gas Company will increase its mains and plant one-third, it was stated at the hearing.

Hears Self Accused of Luring Kennedy to Death.

Mrs. Madalynne Obenchain.

SAYS SHORE ACCUSATION IS UNTRUE.

Wife Files Reply in Suit for Divorce Brought by State Board Member.

Egerton Shore, member of the State Board of Control, falsely charged his wife with desertion in a complaint for divorce filed here last December, persuaded her to sign a power of attorney, which she later revoked, and requested her to waive summons so that he could expedite the divorce, according to a counter-action filed in the Superior Court here yesterday by Mrs. Shore through the law firm of Fredericks and Hanna.

Mrs. Shore, who has been living with her relatives in Canada since leaving Los Angeles in October, 1921, charges that the attitude and actions of her husband caused her mental suffering.

She charges that he criticized her before their adopted child; charged her with desertion; told her his business required him to be away from home at night; that when she asked him to show interest in their home he refused to do so; that when he filed suit for divorce, Dec. 28, 1921, he asked her to waive summons so that he could get an immediate divorce and that she refused to do so.

They were married in 1916. It is further charged by Mrs. Shore that Mr. Shore obtained a power of attorney from her and that he used the authority thus placed in his hands to convey their home and other property to Shore Bros. & Co., a firm of which he is the principal stockholder. She asserts that he sold their household effects at auction in January.

The wife's complaint denying the desertion charge carries a counter-assertion that while the Shores were living at Idlewild, Mr. Shore said to his wife: "I don't want to be your husband any longer." She also asserts that he told his brother-in-law that he wished he had never married Mrs. Shore and that he did not love her.

Mr. Shore filed suit for divorce in Los Angeles county under his full name, Thomas E. R. Shore, and as his social business and political associates knew him only as Egerton Shore some weeks elapsed before the hearing. The proceedings were generally known. He was elected a member of the State Board of Education last June but resigned the position in August to accept appointment by Gov. Stephens as a member of the State Board of Control.

TRANSFERRED PROPERTY. Following publication of facts connected with his divorce suit it was learned that Mr. Shore obtained a power of attorney from Mrs. Shore in October, 1921, prior to her departure for Canada and that he used the power so given him to transfer certain properties to Allen Shore, his brother, who, shortly after the transfer, retransferred the properties to Shore Bros. & Co.

The power of attorney was dated Oct. 24, 1921. It was used Dec. 22, 1921, to transfer property in the

SIGNS OF SPRING.

Trout fishing will be fine in Mill Creek on the opening of the season May 1. P. E. Peterson forecasts as there's lots of snow in the mountains.

Lawn mowers, clippers, garden hose, etc., with seed catalogues that bear the usual rich-red display of tomatoes, eggplants, are being shown in hardware and other store windows.

The Courthouse palm, the only one that's left in the pots that Jack built during expository year, was being given its annual haircut yesterday.

Woodcrest to Get School if Bonds Carry.

A delegation of citizens of the Woodcrest school district, with Monroe Lathrop, as spokesman last night requested the Board of Education to fulfill a twelve-year-old promise to put up a new school building. The delegation was informed that a new \$72,000, nine-unit building would be erected in the Woodcrest district if the proposed \$17,400 bond issue is carried at the special election next June.

Arthur Gould, assistant superintendent of schools in charge of high schools, spoke on his recent visit to the East when he inspected some of the largest high schools in the United States.

ANOTHER GREAT NOVEL SUNDAY.

"Dreams Afire," by Loring Brent, to start in "The Times" Magazine.

"Dreams Afire," a fascinating story of love and intrigue, by Loring Brent, starts next Sunday in "The Times" Magazine and will be completed in the daily issues during the week. Replete with gripping situations, this tale of the matching of American wit and courage against foreign cunning and duplicity sweeps along with broad, sure strokes, never faltering in its absorbing interest.

It is the story of a young engineer who conquers where almost any other man would fail; who sacrificed even his pride to win the beautiful girl he loved. From beginning to end it is a fiction treat! Don't fail to read the first installment Sunday!

INSURANCE PREMIUM DEFRAUDING CHARGED.

Accused of collecting premiums on various insurance policies, amounting to about \$3500, for the Mercantile Insurance Company of San Francisco and not accounting for the money, M. C. Stukeley, local insurance agent, was held to answer yesterday by Justice Forbes. Upon request of Dep. Dist. Atty. Pitts bail was fixed at \$5000.

URGES DAILY LIVING AS CHRISTIAN.

Dr. Davidson Preaches at Noon Lenten Service at Morosco Theater.

Of the 110,000,000 persons in the United States probably 10,000,000 are nominal Christians, but a great many of them are not working in the interests of Christianity.

With this thought for his foundation Dr. George Davidson, pastor of St. John's Episcopal Church here, yesterday preached at the noon Lenten service in the Morosco Theater.

The clergyman exhorted his audience, which comfortably filled the large theater, to show by deeds and "expressions an allegiance to Christ and His church, and not to think that mere attendance at church service was sufficient.

Dr. Davidson discussed the general topics of recreation and election in his twenty-minute address. Under the heading of "Election," the speaker declared those who had professed membership in the Church of Jesus Christ should purify themselves that they "might become jealous in good works." He urged that they display in their daily lives the reality of their changed relations to the world about them.

"What Christians should daily display," he said, "is that which in our lives is peculiar to Christians and which we possess and which may not be possessed by those who have not associated themselves closely with Jesus Christ."

"We should take glory in that Jesus Christ stands between us and the passions of our lower nature. Stands between us and all questionable means of livelihood." And he explained that the dying prayer of the Christ was for those who had come into intimate relationship with Him and not for the world generally.

The pastor's topic was "God Forbid I Should Glory in the Glory of Jesus Christ."

Dr. Davidson will be today's speaker and he announced yesterday that his topic will be "The Measure of the Stature of Jesus Christ and the Fullness Thereof." And he will discuss the Christian character: what it is and what it is not. The service begins at 12 and usually is ended by 1 p.m.

MADALYNNE IS PICTURED AS PURSuer OF VICTIM.

Vitriolic Fight on Defendant Marks State's Final Arguments at Trial for Murder.

Launching a vitriolic attack upon Mrs. Madalynne C. Obenchain, her story and her motives, Dep. Dist. Atty. Fricke yesterday began the onslaught of the State to convict the woman charged with the murder of J. Belton Kennedy, local broker. His remarks were punctuated by frequent exclamations that her story was "fishy," "ridiculous," "impossible." The testimony was ended. Mr. Fricke began his argument in the afternoon.

Touching lightly here, coming down with irresistible force there, Mr. Fricke became absorbed in his plea to the jury. He characterized Madalynne as a woman of designs, one who followed Kennedy, who always sought his company. And as his attack grew in its intensity, the head of the defendant was drawn farther and farther into her furs and her hat turned to conceal her from those who gazed.

Seated in this turtle-like position, she presented a contrast to her former husband, Ralph H. Obenchain, the man who held honor above all else, sat with head erect and eyes staring until some reference was made to him. Then he would either flush or laugh.

There were others in the courtroom who were affected by the address of Mr. Fricke. One was Mrs. J. D. Kennedy, mother of the slain man. The other was J. D. Kennedy, the father. Mrs. Kennedy was screened from the eyes about by a heavy black veil and this, together with several friends who sat around her, prevented her vented her emotions. Her tears ebbed from being observed.

MADALYNNE ON STAND. Madalynne was on the witness stand in the morning. A detective and Mrs. Kennedy were on in the afternoon. Then Mr. Fricke opened.

The new spring hat of a woman juror, the excited upsetting of a glass of water by the prosecution, the sultry, sleepy air of the courtroom, were all forgotten. Even the four motion-picture stars who sat in prominent places went unnoticed by jurors and spectators.

ATTACKS "FISH STORY." Although Mr. Fricke's plea was of a dynamic nature at the outset, as soon as down, he termed Madalynne's contention that she had forgotten what took place at the trial and in all following the killing as "fishy." He said that her assertion that everything was hazy about that evening, that her

One cannot be both a great lover and a perfect lady.

Madalynne Obenchain has endeavored throughout to be a perfect lady.

During that last tense hour of her cross-examination yesterday, that was essentially the impression she wished to convey. All her replies were cautious, well worded, diplomatic, discreet. She was prepared to throw discretion to the winds and cry out that she loved Belton Kennedy—that she loved him so well that she would have gone to hell for him; that there were times when she could have left him, for his own sake, but that she was quick reactions during which she would have accepted him on any terms at any price.

Throughout the trial in her interviews, on the stand, always she has conveyed that impression of studied refinement of "conduct becoming a lady." She has wished

The People and Their Daily Troubles

DOROTHY DIX TALKS

Home Privileges.

BY DOROTHY DIX.

The other day a worn and weary man who is going through the soul-agonizing and pocket-depleting business adjustment of the present time came home and sat down and buried his face in his hands.

"For heaven's sake," cried his wife, "can't you look a little pleasanter around home? You are a pleasant ray of sunshine, you are! You make me feel like going out and trying to get on the front door!"

"I know," replied the husband, "but if a man can't groan and gloom in his own home, where can he? All day long at the office I am compelled to wear a gay and cheerful look and register optimism and prosperity while everything looks to me as if it were going to the nation's doom!"

"All day I have to wear the smile that won't come off, until my face muscles ache with the strain of trying to look pleasant when I am feeling like jelling the whole world where I would like to go. All day I have to be suave and polite and diplomatic, and if you could realize the relief it is to get to a place where you can drop the mask and dam the door and kick the mat, and be just as gloomy and grumpy as you want to be, I think you wouldn't begrudge me the pleasure."

"I know I have no right to take my temper and nerve out on you and dump my troubles on the hearthstone, and turn the home atmosphere blue with my pessimism, but what is a home for if it isn't a place where you can drop the mask and dam the door and kick the mat, and be just as gloomy and grumpy as you want to be, I think you wouldn't begrudge me the pleasure."

"My son is just in it, to make you a happy home, said the wife, who is a good sport, and if it makes you happy to groan, go to it for an hour, after which we will cheer up."

"All I ask is an hour in which to relax, and straighten out the kinks in my nerves and disposition," replied the man, "and if you let me groan that long without nagging, nagging, or questioning, or having your feelings hurt, I'll be ready to look on the bright side, and thank heaven for having given me that sweet home, as an understanding wife."

"I never thought before," said the woman, "of a man's having a right to give way to his moods in his own house, yet, to a degree, I can see the justice of it. If the city he asks for all the work he does, for the average man spends his life in selling to provide the support of a home in which he would like to do as he wants to do. I can see how, when he is too tired to talk, he would like to keep silent without having his wife reproach him for being glum; how, when his nerves are worn to a frazzle, he would like to be able to make an irritable reply without having his wife dissolve in tears; how, when things go wrong, he would like to simply bathe himself in self pity without having his wife reproach him and accuse him with it; how, when he is tired, he would like to be able to go to bed and be left alone, and not have to be polite, or thoughtful, or considerate. I can see how a man feels that he purchases the right even to be disagreeable."

LETTERS TO THE TIMES

Let Americans Do It.

LOS ANGELES, March 13.—(To the Editor of The Times:) Just a little space until I unload myself of a great big lump, otherwise I'm going to burst. Adjoining 509 California street there is a gang of men excavating for a new school house that soon will rise beneath the folds of Old Glory. In that gang I have counted thirteen foreigners—men who claim allegiance to a foreign potentate, men who are depriving our own citizens of a living. Why? Again I ask, why is it that Los Angeles—a city whose very name thrills every fiber of American manhood—employs foreigners to do its work at the expense of our own citizens and taxpayers?

Perhaps you'll answer, "Because this excavation is a private contract to private individuals." It should be that the private individual employing only American citizens while performing work for Los Angeles, and furthermore Los Angeles should insist that all public corporations doing work in Los Angeles, such as our gas, electric, telephone, water, etc., employ only citizens of the United States or at least have declared their intention of becoming citizens. Let our own men and boys get the jobs instead of tramping the streets begging. What a foreigner is starving his own family in the way to the office of his Consul or other representative, who immediately takes steps to relieve him and if necessary to send him back to his native land. Let us take care of our own people, also before the hospital or jail does for them all day.

More Protection. LOS ANGELES, March 14.—(To the Editor of The Times:) Your column recently carried a report of lawlessness in Kern county by hands of masked men. They have abducted, beaten, tarred and feathered citizens of Kern county for alleged misbehavior. Later reports say that United States postal inspectors are investigating these anarchistic night riders. Now the preventive of such lawlessness in a United States should be similar to that of Canada. By the Fourteenth Amendment to the United States Constitution each citizen of a State is declared to be a citizen of the United States, and the United States should protect each citizen in the United States and the more anarchists they bring in dead the better!

CHARLES EDWIN LOCKE.

Too Much Star. LOS ANGELES, March 14.—(To the Editor of The Times:) What do you think of the photograph "Foolish Wife?"

Because of the title I was attracted and went to see it—but after seeing it, I think it should have been named "Vile Men."

The picture lacks balance, as all pictures should. The star is the thing, and surely in "Foolish Wife" Von Stroheim is the thing. Last and all the time, I am not sure but some of us would jolly well like a good story once in a while, even to the crowding out of the personality of the star. But why, while he had the whole thing to himself, writing, directing and acting it all, did he not put a story in it? The wife's part was a very negligible quantity. Evidently not written for the purpose of giving the actress any too much time to bask in the spotlight—albeit she proved herself capable of something in the story redeeming the picture held where she discovers the soldier's arms both gone. It was beautifully done.

C. McGUIRE.

To Prevent Speed. JACKSONVILLE (Fla.) March 13.—(To the Editor of The Times:) Please, very respectfully, call the attention of the Federal government to the fact that its citizens are being unlawfully killed by tens of thousands, and injured, maimed and crippled by hundreds of thousands, by automobiles driven with reckless, excessive and illegal speed. Penalties for speeding have been tried and have failed. The number of killed and injured is increasing annually. I therefore respectfully petition the Federal government to pass a law that no automobile capable of traveling faster than fifteen miles an hour shall be manufactured or sold in the United States, or any of the States in the United States of America.

BERTRAND SHADWELL.

Don't Like Crime. LONG BEACH, March 13.—(To the Editor of The Times:) At a meeting of the Federal Teachers' Association of Los Angeles, February 18, I, as secretary of the association, was instructed to write you as follows:

It is the sense of this meeting that the publication of detailed statistics of crime in the daily press is harmful to the morale of the young people and against the best interests of the community. That the principal newspapers of Los Angeles be advised of this action and that this organization which represents a large number of their subscribers will appreciate a change in their policy in this regard.

MRS. WILLIAM N. WUNDER, Secretary.

Constitutional Questions. LOS ANGELES, March 13.—(To the Editor of The Times:) The Supreme Court of the United States has decided that the Tenth Amendment to the Federal Constitution means what it says and that, in fact, the people must be protected against unreasonable search and seizure.

The Supreme Court of the State of California has just decided that this amendment is binding on all Federal courts and that the State courts will not step in to inquire into the validity of searches from which evidence comes or the means by which it was obtained.

Now, the State Constitution in Section 13 of Article I, sets out in full the identical wording of Amendment No. 4 of the Federal Constitution.

In the Federal Constitution it is construed to mean that the people must be protected against unreasonable search and seizure. In the State it is held that the people have no such protection.

Can it be that the English language means one thing in the Federal Constitution and means another in the State Constitution? Or can it be that the members of the honorable Supreme Court have never read the State Constitution?

J. A. MARTIN.

Wants to Pay Tax. PARALENA, March 11.—(To the Editor of The Times:) H. C. Carden, in your issue of the 10th, states that he is a very able service record and he suggests his record by declining any offer for a reward, but pleads only that the wounded and disabled be cared for. It is good to learn that so many of the boys feel as he does about the matter and, of course, if they do not want those of us who stayed at home to reimburse them further, it is well. Then, too, we must remember that Uncle Sam at the present time is a generous victor of the Civil War and that perhaps fifty years hence he will be pensioning veterans of the World War. Apparently Mr. Carden has seen so much hypocrisy and false charity that it is hard for him to realize that there are people who are ready to sacrifice in order that we may discharge our obligations to the soldiers. He has an personal acquaintance with me and he is void of any right whatever to state that I desire to be charitable without affecting my purse. My purse, as well as my heart, is with the boys. If only the wounded and disabled are to be cared for at the present time let the tax be levied on the stay-at-home people. I bespeak for Mr. Carden the greater of the two choices. While it is true that there are those among us who soar their heads off God-blessing the boys and women and allow them to starve to death, we are not all that way. Then, too, there is some public law which obliges the fellow who is given the least acquires the most and that riches are principally a matter of self-accomplishment. It is the mother of invention, and so, if we give to these sturdy young soldiers, we deprive them of the ability to acquire and create that mental and material condition that brings the greatest joy, the sublime peace, the supremest independence that may exist. If we take good care of the sick and wounded, we are not acting as a benevolent obligation that is void of charity.

MAYOR URGED TO OUST M'KEE.

Foreign Trade Committee Advises Action.

Resolutions Term Board Had Trouble Maker.

Member Executive Cuts Two Other Setbacks.

The foreign trade committee of the Commercial Board of Los Angeles yesterday urged action on resolutions adopted and delivered Mayor Cramer later in the day in the resignation of William McKee as president of the Board of Harbor Commissioners.

McKee's resignation was approved by the appointment of Frederick James (J.F.) (retired).

The resolutions also express the committee's confidence in Commissioners Kibele and Richards, and that the committee is "satisfied" by the action of President McKee. McKee is chairman of the Board of Harbor Commissioners and also is chairman of the committee of the Board of Harbor Commissioners.

At yesterday's meeting the committee as a guest and interested in the development of the harbor. McKee, former president of the Chamber of Commerce, was the only member of the board of directors of the Commercial Board.

The resolutions ended as follows: "Resolved, that in our judgment the resignation of McKee as president of the Board of Harbor Commissioners is a serious matter and that the committee is satisfied by the action of President McKee. a moment the salesperson was re-
sponding. "Oh, here on the Sixth
Floor," she said. And the cus-
tomer went to the Sixth Floor and
found Tabor, who is the little god
of luck, and the home-mascot that
everybody finds so amusing. Only

Jaun Not Likely to Take Over Lease of Race Track in Mexico City.

MEXICO CITY, March 13.—Although it is reported here that John A. McGraw, New York baseball manager, is negotiating for the lease of the Ciudad Guadalupe in this city from G. D. Bryan and James O'Brien, with the view of entering the racing game, it is considered unlikely, in the view of the numerous rumors of the recent racing season here, that this sport will be tried again for some time to come. Various kinds of intrigues growing out of the financial failure of the racing proprietors in this city, some of the American racing men are reported here, and all in all, the aftermath of the sport is a bad one. The government often to have been \$257,000 in operating expenses, or an average of \$257 a day.

It was learned at the Second Federal District Court that a restraining order has been obtained against Bryan, O'Brien and G. D. Bryan, preventing them from leaving Mexico City under penalty of immediate arrest.

According to local newspapers, certain horsemen are discussing the advisability of going to court to enforce the restraining order, and that one of them has been in telegraphic communication with McGraw.

A junior track team will be formed this term by Coach Bruce Kirkpatrick, out of L. A. High, and meets will be scheduled, the first to be with Hollywood at their field.

Pinkston Numbered Among the Missing.

Al White Expected to Grab Diving Events.

STANFORD UNIVERSITY.

Stanford's aquatic team, which will bring its collection of Stanford swimmers to Southern California for matches with the members of the Los Angeles Athletic Club March 15. The San Diego Diving Club, San Diego Junior College and the Coronado Athletic Club are also slated for contests with the Stanford swimmers on the tentative schedule released today. Stanford's outfit is somewhat weakened by the loss of Clarence Pinkston, world's champion diving champion who left college in January. However, the Cardinal member has another protegee, Al White, whom he predicts will be the champion of the world during the 1932 season. Both Pinkston and White were developed by Stanford.

The contest between the L.A.C. and Stanford will include a four-lap relay, 100 feet to the lap, seven other events are named: 100-yard breast-stroke, 200-yard free-style, 100-yard back-stroke, 100-yard free-style, 100-yard back-stroke, 100-yard free-style. In the 200 free-style, Stanford claims a fast man in Al White, who has been fighting first in most of the meets about San Francisco Bay. Charles Fletcher, another youngster, is making fast time in the breast-stroke. Drake, a star sprinter, was lost to Stanford in January, as was Pinkston. The complete Stanford roster will include White, Austin, MacConnell, Sheehan, Fletcher, Schneider, Kraemer, Miller, Dickey, Wooster, Belcher, Hawley, DeGroot and Claborn. Al White scored 147 points by the system of grading used in the Airtway matches. Pinkston won these matches at 213.

STANFORD LEWIS TO MEET PETROF AGAIN.

(BY A. J. MONT WIRE.)

MANKVILLE, March 13.—Ed (Buzsler) Lewis, world's champion heavyweight wrestler, who defeated Joe Petrof here last week by using the headlock, has been matched again with the Bulgarian heavyweight for a fifth bout next Thursday night under an agreement that the headlock be barred.

OXFORD HONORS CALIFORNIA MAN.

(BY MONT AND ASSOCIATES FROM OXFORD, ENGL.)

13.—A. B. Graves, a California student, has been elected captain of the Oxford University lawn tennis club for 1932. Mr. Graves won distinction at the Wimbledon tournament last June in a stubbornly lost match against A. Dwyer Keble of Hellenic. The battle lasted two hours and a half, with a resulting score of 6-4, 4-6, 6-1, 6-4, 6-2.

The Oxford team promises to be slightly stronger than last year, the freshman class producing some unusually good players from America and Australia. The Oxford-Cambridge match has been fixed provisionally for June 31 and 12 at Oxford.

Trojans Boxers to Meet Bears - Friday Night.

Gwynn Wilson, graduate manager of U.S.C., has been cast in the role of matchmaker of late, and has succeeded in lining up a wild bunch of bouts to introduce boxing as a minor sport to the Trojans. Friday night in the basketball pavilion recently completed the best pugilistic talent U.S.C. can dig up will be matched with California's best exponent of the manly art of self-defense in six lively bouts and two preliminaries.

Jimmy Cline, a 155-pound package of dynamite, who defeated the Bears, will be the chief performer of the State University's team, while Big Fabian Prybka, who tips in at 175 pounds, is the headliner for U.S.C. In addition to the card which follows a wrestling exhibition will be put on.

LOYOLA NINE TO MEET POLY AGAIN.

Coach Mahoney will send his stitched team against the Loyola College nine today at Exposition Park. This will not be the first time these two teams have met. In the previous encounter the Loyola squad won out by a 6 to 0 score. However, this time Mahoney says his squad is working better and that he hopes to hand the Catholic team the same old end of the score.

LANTADOS BACKED TO COP DERBY.

Santa Anita Folk Pin Hopes on Great Steed to Win Cofferth Handicap.

Joy will reign at Santa Anita next Sunday afternoon if the new leader from Tijuana that Lantados has been returned winner of the \$25,000 Cofferth handicap. And the joy will not be all because Lantados is a Baldwin-bred colt, and has upheld the honor of his father, Crusades, and his grandfather, Emperor of Norfolk and Rev. C. J. Lantados. Much of it will be because in the Baldwin stable there is a full brother to Lantados. If the latter wins the rich classic, brother's price will immediately jump to \$15,000, despite the fact he has never raced.

Local horsemen say that if Lantados wins at Tijuana over the mile-and-a-quarter route assigned to the Cofferth handicap, he will be running true to form. Both his grandfathers were American bred, when that classic was run at a mile and a half. Orange Leaf, his great-grand-dam, won a Thoroughbred race in 1880 and later was back in the Lantados pedigree as Mollie McCarty, the great California mare of her time.

LINCOLN TRACKSTERS MEET MANUAL FRIDAY

Because of a little mix-up, and the Board of Education butting in on the Lincoln track meet, which was to be held at Palo Alto Saturday, Coach Tommy Davis of Lincoln High has had his track schedule all halved up. The Lincoln tracksters were to have met Friday on the Lincoln track, and another with Pasadena for the first at Lincoln. The meet with Pasadena will be just one week before the city meet, which is to be held at the Occidental club path.

MAKES UNUSUAL SCORE IN BOWLING TOURNEY.

(BY A. J. MONT WIRE.)

TOLSON, (O.), March 13.—Frank Deppa, Buffalo, in his third game in the two-man event in today's American Bowling Congress championship, rolled 285 pins, and won on his last ball, but stood up and robbed him of a perfect brother Christy in this event, and rolled his first game with a score of 137 in the three games. Scores were 246, 479 and 525.

INTRODUCE WRESTLING BY ROUNDS.

Miller and Rhoda Grapple Under New Rules at L.A.A.C. Thursday Night.

Wrestling by rounds under White rules will be introduced in Los Angeles for the first time next Thursday evening when Walter Miller and Rhoda Rhoda grapple eight ten-minute rounds in the gymnasium of the Los Angeles Athletic Club. Numerous followers of the mat sport have declared that wrestling would be more popular if some way were devised by which the action would be speeded up. By the staging of rounds, the grapple will therefore have to work every minute they are on the mat and a rejuvenation of interest in the wrestling game is predicted due to the new system of staging matches.

Miller is getting well primed for Eddie O'Connell has been selected as referee of the match. Inasmuch as this system is somewhat new here, Eddie may not have an easy job. The rounds will be ten minutes each, with two-minute rest intervals. In case neither contestant wins two falls before the conclusion of the eight rounds a decision must be rendered. The battle between the white and Japanese midweight champions is attracting unusual interest.

CATCHER SCHMIDT SPURNS NEW OFFER.

(BY A. J. MONT WIRE.)

MODERNO, March 13.—Walter Schmidt, first string catcher of the Pittsburgh National League club today received a letter from President Barney Dreyfus offering him \$5000 for the season's work, also stating that Schmidt would be placed on the ineligible list if he did not at once report to the training camp. Schmidt replied that the figure offered was too low and that Dreyfus could put him on the ineligible list as far as he was concerned.

MEMBERSHIP LIST IN ANGLING CLUB GROWS

The membership list of the Rainbow Angling Club continues to grow by leaps and bounds, declares Pete Peterson. Two of the latest sportsmen to take out cards are Lawrence Suman and George H. Pendleton.

Some time ago M. F. Colt was a guest at the ranch. He returned to his home at Lima, O., and last week wrote to Leigh Gurnsey, manager of the club, applying for a membership, or as to be ready for some real trout angling on his return here next fall.

EARLY in its history The Autocar Company established the policy of serving Autocar owners in the principal commercial centers with its own Factory Branch organization in order to provide just the complete service protection that motor truck users have a right to demand. In assuming this undivided responsibility it established a good will which has evidenced itself by ever-recurring repeat orders until the bulk of all the motor trucks it can make are required to fill repeat orders of former users.

A motor truck is only as good as the service behind

Race for Southern California Casaba Title Nears End.

MANUAL MEETS ALHAMBRA FIVE.

Semi-Final Contest for Title of South Thursday.

Fullerton and Imperial in Pivot Game Tomorrow.

Huntington Park in Finals for Midget Honors.

Baseball will give a few last meals this week before dropping out of sight for another season when the semifinals are played. The biggest event will be the U.S.C. semifinals between Manual and Alhambra, which will take place on Thursday.

Tomorrow morning bright and early Fullerton and Imperial, the other two teams left in the battle for the semifinals, will meet. The winning team will wrap it up with the victor of the Manual-Alhambra games on a date and court yet to be selected.

The five winning the Southern California title will meet Tulsa, Oklahoma, in the semifinals for the national championship. The winners of the Manual-Alhambra games will take the place of the Tulsa team in the semifinals.

Manual has pulled through all competition offered this season, and is a heavy favorite to win the Southern California Casaba crown. However, Alhambra made an admirable record in the Central League, and put the finishing touches on Ventura's ambitions Saturday by trimming them on their own court, 25 to 13.

In the 180-pound class, Montebello, Huntington Park and Glendale remain in the running. Montebello and Glendale will connect tomorrow afternoon, and the team coming out on top will take a crack at Coach Burrell's fifty lightweights at Huntington Park for the title.

Even the 110-pound giants are having their innings now, the glory of recent seasons to rest between the crack squads of Whittier, Long Beach and National City. Whittier and Long Beach are slated to meet tomorrow afternoon, and National City will take on the winners for the heavyweight championship.

The ninety-pounders, officially referred to as the midgets, are yet to settle matters. Hollywood and Inglewood claim the right to participate in the title round, and will undoubtedly get together this week.

OXY FROTH TANGLE WITH BAKERSFIELD.

Occidental's froth track team will journey to the center of the state Saturday for a meet with Bakersfield's cinderpath talent.

Both teams are in fine shape, having disposed of all comers so far, and some excellent times are expected.

The froth have met several Southern California high schools during the season, with satisfying results, and Bakersfield's reputation is such as to make the opponents hesitate on picking winners.

INDOOR POLE VAULT RECORD IS SMASHED.

CHICAGO, March 12.—Eddie Knickerbocker, of the Illinois A.C., and E. E. (Lester) Myers, of the Chicago A.A., last night broke the world's record for an indoor pole vault of boards at the twenty-fourth annual track and field meet of the Cox Standard and Thirty-day industry. The men tied at 11 feet, 3 1/4 inches.

The Chicago A.A. was the meet with 65 points.

NO HOMER BONUS FOR BABE RUTH.

(BY A. P. MORTIMER.) NEW YORK, March 12.—Babe Ruth's contract carries no provision for a bonus on each home run, as was reported from Hot Springs.

The big home-run slugger signed a straight three-year salary contract, with an option for its continuance for two additional years at the same figure if both parties agreed, Col. Jacob Ruppert, part owner of the club, said.

It was first reported that, in addition to his salary, Ruth would get \$100 every time he hit the ball over a complete trip around the base.

CAVALRY DEFEATS DENVER.

Del Monte and San Mateo Clash Today at San Diego for Coast Polo Title.

(SPECIAL REPORT.) SAN DIEGO, March 12.—The Cavalry polo team won the final contest in the series for the Joseph J. Joseph trophy by defeating the Denver team in a very one-sided game, 11 goals to 4.

Mal C. P. Chandler continued his sterling playing, scoring five of the Cavalry's goals. Tobin shot two of Denver's four goals, his first goal in the opening frame putting Denver temporarily in the lead.

The Cavalrymen were unable to score at the start, but came back with a rush in the second and put the ball between the posts five times.

Line-ups and summary: Cavalry—C. P. BREEZES FROM SPRING CAMPS.

(BY A. P. MORTIMER.)

MODERATO, March 12.—Following a stiff workout of three hours today, which included road work, batting and fielding practice and a seven-inning game between the regular and Yarnigans, Manager Duffy Leary of the Salt Lake Bees began cutting down the squad. Pitcher Lee Bickart, secured from the Terre Haute club, and George Van Oost, coming from Los Angeles, were the first to walk the plank. Lewis announced that additional releases would be handed out tomorrow.

There was no practice game today for the players of the Indians in the morning and for the balance of the squad in the afternoon.

ARRESTED ON CHARGE OF SWINDLING WOMAN

MAN SOUGHT FOR THREE YEARS LOCATED IN MAIN-STREAM LODGING HOUSE.

Recognized by an asserted victim after the police had been searching for him for more than three years, John Carr, 68 years of age, said to be a well-known swindler was taken into custody yesterday afternoon in a rooming-house at Seventh and Main street. He is charged with grand larceny. Police Detectives Schofield and Vary were notified by Mrs. Isabella Franklin of 254 East Thirty-first street, that Carr was living in the Main-street rooming-house. Mrs. Franklin informed the police that in 1918 Carr swindled her of \$100 and a gold watch. Following the arrest Mrs. Franklin identified Carr and stated that she would prosecute him.

According to the information on file at the Central Police Station, early in 1918, Carr lived in Mrs.

Franklin's house. He notified her, she said, that he had a large sum of money and some gold nuggets in a safety deposit box in this city and declared that he had lost the key. Mrs. Franklin reported that she advanced the aged man \$100 and a gold watch and that he disappeared. When the safety deposit box was opened Mrs. Franklin discovered that it contained a number of large rocks.

Police yesterday declared that Carr has a police record here and has been implicated in several swindles in which women were victimized.

"I'm a bootlegger, I ain't no vagrant," L. R. Riddle shouted in indignation at Judge Crawford in the Police Court at Los Angeles Harbor yesterday when he was arraigned on a charge of vagrancy.

In his report to the police, Weber declared that both of the bandits wore masks and carried revolvers.

WIFE WINS DIVORCE.

Husband Introduced Her to Another Woman as "Miss."

Mrs. Mary E. Warren, in Judge Summerhays' court yesterday was granted a divorce from Clyde H. Warren, because of his peculiar attributes. Among other incidents she told of surprising her husband writing a letter. She saw the address on the letter, but the letter itself he tore into bits and she could not piece it together.

Another incident recounted, was when she saw him in the company of another woman. She asked him to introduce her, she said, and presented her as "Miss."

"No, Mrs. Warren, your wife," was the retort, according to the testimony.

"Quit your kidding," was his purported reply. "I haven't any wife."

MILK CASES DELAYED.

Illness of Attorneys Causes Postponement of Trial.

Because of illness of certain members of the law firm of Williams, Hallett and Congrove, the trial of cases of eighteen milk-distributing companies and fourteen individuals was continued yesterday by Judge Reeve until May 22. The continuance was taken on motion of defense counsel. The defendants are accused of violation of the Cartwright Act, by establishing an asserted combination in restraint of trade.

“---and we are a healthy happy family now”

—Louis Gingras

TINGLING with abundant energy, appetites hearty, nerves strong and steady and their faces radiant with the glow of perfect health, the entire family of Louis Gingras, 9 Harrison Ave., Providence, R. I., are an eloquent tribute to the powers of Tanlac, the greatest family medicine the world has ever known.

“I’ve put Tanlac in the test four times right in my own family and it hasn’t failed me once,” declared Mr. Gingras. “My wife, my son and my daughter, as well as myself, have all been built up from a half-sick, run-down, worn-out set of people into a healthy, happy family bristling with new life and energy.”

And the experience of this family is only typical of thousands of others whose statements are on file in the Tanlac office. Hardly a day passes that does not bring word of such messages of praise from every part of the United States and Canada from families where mother, father, son and daughter have all found health, contentment and the joys of living through simply taking a course of Tanlac.

Take, for instance, the case of John Withers, 1271 Roosevelt Ave., Los Angeles, Calif., who says: “My wife, myself and little boy are now as healthy, happy family as you will ever see—and it’s all due to Tanlac.”

Or that of Mrs. John Marquis and her family of six living in Manchester, N. H., at 283 Belmont St. She says: “Tanalac has been the only medicine used in our house for two years and it has kept every one of the six in the best of health.”

In Chicago, Frank R. Richards, of 411 South Wood St., writes: “We will never be without Tanlac in our house after the remarkable way it has built up my wife, my son and myself to where we are the very picture of health.”

MADALYNE IS SLOW IN REPLY.

Hat Rim Protects Her from Stare of Prosecutor.

Measured Tone Indicates Absence of “Flurry.”

Mrs. Kennedy Helped Upon Stand by Husband.

(Continued from First Page.)

mind was a blank about later even when she was asked to answer.

Once in an excited moment the prosecutor referred to the defendant as “Madalyne.” He quickly corrected himself, however, with a “pardon me, Mrs. Obenshain.”

“LEAVE” AT DEFENDANT. Having no feelings for the nerves of the spectators, Mr. Fricks insisted on starting them as much as possible. On one occasion in low tones he led up to a statement in which he almost leaped at the jury. He had reached the point of conversation in which Mrs. Wilson is said to have told Mrs. Kennedy that her son was going to die.

From a semicircular position Mr. Fricks hurled his words and himself at the jury: “Your son is going to die—is going to die. And you are going to cry.”

“FLAYS WOMAN’S LIFE.” Mr. Fricks began his carefully prepared address to the jury by pointing out the point that the defendant should be regarded in the impersonal light of a mere defendant and that the jury should not consider in the case the fact that Mrs. Obenshain is a woman.

He led up to his attack in a logical and clear manner. Then he launched it with the charge that Madalyne is a woman of designs, selfish; that she has surrounded herself with admirers all her life, and that men have been at her beck and call since her college days. Then he began his “flaying” of the woman.

Mr. Fricks termed her a “human doormat”; he said that she was “hypnotized, blinded and befuddled” by the defendant. He called attention to the fact that she had divorced her husband and that she was now married to a man who was “a fortune teller” and “a charlatan.”

And should you be one of those homes where any member of the family is thin, run down and weakened from loss of appetite, caused by indigestion and stomach troubles, you have at your very door the means that will no doubt bring the machine of vigorous health back into their lives and yours, just as it has done in so many thousands of other cases. Do not delay. Get a bottle of Tanlac from your druggist today.—Advertisement.

And on through the list, men, women and children from every state in the Union and every province in Canada unhesitatingly come forward and tell in words ringing with sincerity of the wonderful benefits of health and happiness that Tanlac has brought into their homes that were formerly darkened by the gloom of sickness, suffering and despair.

Attacks “FIGHT” STORY. He went to great length to tell of the asserted fight between Mrs. Obenshain and Kennedy in the defendant’s room at the Alexandria, when the young broker is charged with attempting to kill her because she would not marry him. He said that no witnesses had been produced that heard the scuffle.

Occasionally Mr. Fricks would return to Ralph and make a fresh comment upon his action and attitude. When he would do this, Mr. Obenshain would smile or appear undisturbed. At sinister interludes occasionally cast by Mr. Fricks, Ralph would flush slightly, but never appeared “fighting mad” at any time.

Mr. Fricks took up from time to time the testimony of the witnesses and commented on the various statements made by them.

The cross-examination of Mrs. Obenshain was a fight from the moment that the defendant took the chair until she left it a few minutes before noon. It was a fight that could hardly be grasped well concealed. On many questions Madalyne was evasive, on others defiant. Never did her voice rise, however.

Mr. Fricks asked all of his questions in the same mild manner that has characterized his conduct throughout. Only occasional spurs on his part in demanding to know certain things were noticeable.

TRIAL IS DELAYED. The opening of the session was delayed when attorneys for the indicted “milk barons” appeared to learn when the heads of the local milk companies would appear for trial. Then Madalyne took the stand.

As Mr. Fricks questioned Mrs. Obenshain again recounted the trip on the day of the murder from the time she and Kennedy left the Alexandria until the shots were fired in the Glen. She said that she left the hotel in the late afternoon and that they drove first to Manhattan and thence to Playa Rey, where they sat on the sand.

She then stated that the “lucky penny”—the one that indirectly caused Kennedy’s death—was buried by herself and her sister, Glenys Smart, one day while they were driving with friends in Beverly Glen. Madalyne told the jury that she advised Belton that same evening of the incident and showed him a bunch of flowers she had plucked from the hills near the cabin.

Then the prosecution began its most persistent grilling of the day when Mr. Fricks and Mr. Fricks attempted to get Madalyne to draw a definite line between the time she remembered and the time she forgot everything. Question after question, forward and back, they went. From observation it seemed that they were endeavoring to get her to remember something during the period she said her mind was a blank.

REPLIES STUDIED. But Madalyne is one not easily tripped. Each question asked was carefully considered before she attempted to answer.

The eyes of Mr. Fricks never left the face of the woman throughout the morning session. He leaned forward in his chair and stared at her. But she had thoughtfully armed herself with a big brimmed hat and her head was turned during the greater part of the day so that she did not see the prosecutor. The only times that their eyes met were upon questions when her voice took a firm note and her

A wide variety of news will be presented pictorially covering events at home and abroad.

Answers, to observers, seemed defiant.

The first time that the young woman, Mrs. Kennedy, was asked shortly after she had been on the stand an hour. She was testifying concerning the penny supposedly lost by the defendant.

“You never put any penny there, did you Mrs. Obenshain?” Mr. Fricks asked in a matter of fact voice.

She turned and faced him fully. “I certainly did.”

At times the jury members asked questions. They had not done this before during the trial.

The last question asked by Mr. Fricks brought forth an objection from Mrs. Obenshain. By it, it was inferred, the state hoped to explain many of the actions of the defendant. The question was: “Did you ever study for the stage, Mrs. Obenshain?”

It went unanswered.

The first witness of the afternoon was H. S. Hallner, a detective in the firm service. He testified that he had made experiments with a car that Mrs. Obenshain had found that the alleged state mileage that Burch made the evening of the killing equaled the distance between Parsons Brothers, where he rented the car and Long Beach and return. The state contends that the forty-four miles was the distance from Los Angeles to Leavenworth, to Santa Monica Canyon where the gun was hidden, and back to Los Angeles.

MRS. KENNEDY ON STAND. Then Mrs. J. D. Kennedy was called to the stand. She testified concerning a purported conversation with Mrs. M. Louise Wilson in which Mrs. Wilson stated that she was going to die. Mrs. Wilson denied that any such conversation ever took place and the mother of the slain man was called to refute this statement.

The marble-like countenance of Mrs. Kennedy was concealed by a heavy black veil. She was seated to and from the witness stand by her husband.

NEW RECORD IN VIEW FOR “THE TIMES” Display Advertising Staff Hears Reports of Work Done So Far This Year.

Members of the display advertising staff of The Times attended a dinner Saturday in the Red Room of the Athletic Club to celebrate a running start for 1931. Irving R. Smith, advertising manager, had set 100 new contracts as the goal for the opening of the year, but by February 28 just 125 new contracts had been brought in. In addition to the renewed ones, Mr. Smith said he looked for a 1931 record that would exceed the 1930 total of 1,847.

Mr. Smith’s secretary, A. F. N. Bowers, assistant advertising manager, and others, made brief addresses.

Fred W. Ross gave an illustrated lecture on automobile advertising in The Times, and Peggy Hamilton told of fashion displays in the rotogravure section of which she is in charge, as well as of the “Peg O’Leary” and “Balls of the Markets” departments. The consensus of the meeting was that the majority of advertisers are convinced that The Times is the best medium to reach all classes of readers and that many firms use it exclusively.

Among those present were L. G. Burns, F. W. Ross, H. D. Sylvester, E. G. Lee, W. Adams, C. J. Rohrbaugh, A. Amis, J. C. Baddley, W. Stewart, C. N. Burger and Miss Pauline Denison. The latter, who is Mr. Smith’s secretary, was presented with a carol collar in appreciation of her services.

ABANDONS FIGHT AGAINST TRIAL.

Prisoner Will Return to Face Court in Ohio.

Wanted as One of Toledo Mail Robber Gang.

Almost Million Dollars Taken by Thieves.

United States Commissioner Long this morning will order the removal to Toledo of Everett C. Lewis, who at the time of his arrest some weeks ago lived at 1848 East Thirty-second street. Lewis is wanted on charges of complicity in the mail truck robbery in the Ohio city on the night of Feb. 15, 1931.

That night, the thieves almost \$1,000,000 in money, stocks and bonds. Of the negotiable paper a total of \$340,000 has already been recovered.

Mrs. Lillian E. Lewis, wife of the prisoner, who has been in the County Jail with him in default of \$100,000 bail, will not be prosecuted.

Lewis and Eddie O’Brien, reported to be known in the underworld as “Frisco Eddie,” “Thick Lips” and other aliases, who waived preliminary examinations before the commissioner a month ago, but who has been held here since at his own request to testify for the Lewis case.

The shift in the defense of Lewis came quickly yesterday. With the assistance of O’Brien, Lewis had employed lawyers to conduct his defense. The government had subpoenaed twenty-two witnesses from Los Angeles and vicinity, and three came from Ohio. In addition to Lewis, O’Brien, Bolls, journeyed from Ohio by special appointment of Atty.-Gen. Daugherty to prosecute Lewis. It was expected that the hearing before the commissioner beginning this morning would occupy the most of the pre-trial week. But suddenly there came the announcement that Lewis would waive a preliminary hearing as had O’Brien, and return to Ohio, where it is understood an indictment is awaiting him. O’Brien is also under indictment here.

According to the statements of the local federal postoffice inspectors who have investigated the Lewis case, Lewis and his wife were “bankers” for O’Brien and had his share of the Toledo loot. The O’Brien family conducted a gasoline business at Eleventh and Western avenues.

Of the eggs who held up the Toledo mail truck, George Rodgers is serving a sentence of sixty-seven years in the Federal penitentiary at Moundville, W. Va.; Charles Schultz, has forty years ahead of him in Leavenworth, and James Basone has a term of thirty-nine years in the same place. Rodgers and Schultz escaped from jail at Toledo, but were afterward captured. Joe Urbayus and Nathan Oterbeck reported to have been connected with the robbery, are still at large. In connection with the conspiracy, other than the principals, have been convicted by the United States District Court in Toledo.

“LADY FIRST, THEN LOVER.” (Continued from First Page.)

the jury to see her as a woman of untarnished virtue, a woman who loved too well, perhaps, but not too well to fling the regard of the world into the discard. A great love but a cautious love that never forgot its caution long.

She wanted all the poetic attributes of that love. She told in gentle mournful cadence of sitting on the bench at Playa Rey, and sunset: of the pale young moon in the heavens in Beverly Glen; of the blossoms she picked when she buried the sliver of “lucky” penny. But when it came to answering direct questions of embarrassing nature, her words came studied, careful, lady-like as she explained in cautious parlance:

“I cannot remember the exact words, but I can recall the substance of her conversation. There was a phrase she repeated with well modulated effect on many occasions.

She is always particularly courteous to the jury. She never forgets her good manners.

And always when she is carefully reminding the prosecutor that she does not recall having made any statement in his office on August 6 last. She addresses him politely by name and looks him straight in the eye, with a gentle and refined challenge.

But great lovers are reckless. Great lovers take passionate risks. Great lovers are apt to forget their caution and the consequences in their acclamation of that love. They don’t remember the niceties of artistic effect, nor the subtleties of coy evasiveness. Only the cautious and the level-headed can do that.

One could not but feel while listening to her measured words and perfect self-restraint, that if only she had blazed up in a glorious fury; if only she had raised her voice and shouted that she loved him so greatly that nothing else in the world mattered; if she had confessed with a sort of pitiful shame that conventionality, reputation, nothing mattered in her scales against her love for him, that of course she did suffer every convulsion of conflicting emotions and knew not from day to day what she said or what she wrote, if she had done this, I say, one could not but feel that the jury, every one of them probably has been through some like experience in greater or lesser measure, would have risen to her in a vision of memory, and of admiration.

Clara Smith Hamon’s great plan was she had been to tell for her lover, that even in her confessed guilt, the jury understood.

Madalyne Obenshain above all things wishes us to understand that her virtue remained untarnished. That no matter what the intensity of her love, her emotions, she was always a perfect lady. That she never ever-stopped that pole

MASON-HOPPER SUIT IS FILED.

"Know All" Telegram Stays in Second Position.

Some Charges Reduced in New Complaint.

Asserted Party at Avalon and Choking Told.

The famous "I know all whether on land or sea" telegram of E. Harold Mason-Hopper, cinema director, to his wife, Ruth Mason-Hopper, while she was staying in Avalon, features the second divorce suit filed yesterday by Mrs. Mason-Hopper through Attorney Channing Follette. The first divorce suit filed some time ago was dismissed; the second suit reduces some of the charges made in the former action. But the telegram stays in.

After the first action was filed and there had been a preliminary hearing on alimony, a property settlement, approximately \$25,000, was entered into. In her latest suit she asks for alimony without naming the amount and for the custody of her daughter, Audrey Hopper, 4 years of age.

Audrey was apparently the apple of Mr. Hopper's eye. He says in his telegram that the child is his only love, with whom he expected to spend his holiday. His wife's two week trip in Avalon cost Mr. Hopper \$100, he asserted. Mrs. Mason-Hopper asked him about this \$100 upon her return from Avalon and he told her, she declares, that the money was spent to hire detectives to watch her. Hence his all-seeing boast. He told her he had the goods on her.

"What are you going to do?" she asked him. The answer was to grab her by the shoulders and stare at her, it was said.

"I am going to end it now," she said. "How would you like me to do it?"

When she did not specify, he seized her by the throat and forced her on the bed. When she put up a fight, he continued to use force.

The complaint further states that he accused her of taking \$100 of his money; misappropriating money from the household fund and padding her household expense account, devoting the money to her own use.

WIRE LINE SALE OPPOSED.

Final Transfer to City of Edison's Distributing System Fought by Gas Company.

The hearing on application for final approval by the State Railroad Commission of the sale to the city by the Southern California Edison Company of the latter's distributing lines, was held yesterday, was the signal for an all-day battle in which opposition to the consummation of the sale was presented by the Los Angeles Gas and Electric Corporation.

During the session, which was presided over by President Brundage of the commission, there were frequent tiffs between Attorney Paul Overton, general counsel for the gas company, and W. B. Mathews, representative for the city of the bureau of power and light.

Mr. Overton opened the fight by declaring that the city had been called to account for its war record during 1918 when officials of the power company began paralleling the lines of the Edison company.

Edwin O. Edgeron, formerly president of the State Railroad Commission and now special counsel for the Edison company, was a principal witness of the day.

The witness sketched the history of the negotiations between Los Angeles city officials and representatives of the Edison company at which he presided, leading up to the agreement for the purchase of the distributing properties within the city limits by the former.

It was the desire of the commission, he said, to prevent paralleling of distributing lines, both in the city and in surrounding territory, because the commission believed the paralleling of lines would inevitably result in disastrous loss to the consumer.

The point was emphasized by Attorney Overton, who said that the Edison company, if permitted to transfer its lines, will not be serving the best interests of consumers.

At the close of Mr. Edgeron's argument, Percy V. Hammond, stating that he represented a private consumer, John E. Reed of 1818 West Twenty-fourth street, interposed an objection to the transfer of the distributing lines of the Edison company to the city.

The matter of transfer was taken under advisement by President Brundage of the commission, at the conclusion of the arguments, late in the afternoon.

Tilton Named as Commander at Harbor Fort

Lieut.-Col. E. R. Tilton, now on duty in the Philippine Islands, was named yesterday as the new commander of the coast defenses at Fort MacArthur, to succeed Col. Henry J. Hatch, who has been ordered to report to April 1 at Fort Monroe, where he will become president of the artillery board.

Lieut.-Col. Tilton is now stationed at Fort Mills, Corregidor Island. He was selected as the new commander of Fort MacArthur after Col. Hatch had requested that his successor should be an artillery officer who would be in sympathy with the training of civilians at the harbor defenses, an institution which was recently established at Fort MacArthur.

HELD IN THEFT CASE.

Mrs. Kaufman Cautious Arrest After Search Fails.

(SPECIAL DISPATCH.)

SAN FRANCISCO, March 13.—Mrs. Angela Kaufman, wealthy Los Angeles philanthropist and social worker, who came here recently in behalf of Mrs. Louise Peete, who is serving a life sentence in San Quentin prison on a murder charge, caused the arrest here today of Joseph Wellner, alias Joseph Reed, she believes, she says, that Wellner was implicated in the robbery of her Los Angeles home.

Mrs. Kaufman's home, at 270 South Rampart Boulevard, was entered February 6 last, and furs and jewelry valued at \$10,000 were stolen. Later she was informed that the stolen goods were in possession of Wellner here. Armed with a search warrant, the police searched Wellner's apartment in a Van Ness-avenue lodging house, but did not find the stolen property. Wellner was arrested at Mrs. Kaufman's request and will be taken south tomorrow by A. C. Spinner, a private detective who accompanied Mrs. Kaufman here on her other mission.

FUNERAL CONDUCTED

Mrs. Dulcibela M. Fortune Interred in Rosedale Cemetery.

Funeral services for Mrs. Dulcibela M. Fortune, who died last Thursday at the age of 57 years at the home of her daughter, Mrs. J. C. H. Jones, were conducted yesterday at 2 p.m. at the Robert Sharp & Sons funeral chapel.

The pall bearers were Charles E. Chandler, George Reid, Theodore C. Reid, H. L. Schoeller, Dr. George Fairchild and P. W. Meyer. Interment was at Rosedale Cemetery.

Besides the daughter, Mrs. Fortune leaves a sister, Miss M. Sedgwick of St. Louis. She was born in England and had lived here twelve years.

FUNERAL TOMORROW.

Robert McKee's Remains to Be Buried at Santa Paula.

The body of Robert McKee, 71 years old, who died here Sunday, will be taken to Santa Paula, where funeral services will be conducted tomorrow. Mr. McKee was a newspaper man for many years, formerly being a reporter on the Times. In later years he was cashier for the Los Angeles Creamery Company.

He was born in Ireland, Oct. 14, 1850, but lived in Los Angeles several years. He leaves four brothers and a sister—James and David McKee of Los Angeles, Mrs. Margaret Fisher and John McKee of Pasadena and George McKee of Oxnard. The body was taken to the Dutch funeral chapel.

All-Steel Cars Ordered by P.E.

Paul Shoup as president of the Pacific Electric yesterday advised the State Railroad Commission that he had ordered the fifty new cars required by the commission at the time of the readjusted fares.

The cars ordered are of all-steel construction. They will have central entrances like some of the cars on the Los Angeles Railway but will seat sixty-five passengers and will be the largest cars in the United States, the company officials said. The new cars will be used exclusively on the Hollywood line in accordance with the commission's order. They will supplant cars of the old type.

The equipment has been ordered from the St. Louis Car Company and the Westinghouse Manufacturing Company and will cost \$100,000. The contracts call for delivery within four months and the cars will be put in service as soon as they can be shipped here.

"IRENE" SPARKLES.

PATRICK HAROLD IN TITLE ROLE IS A GEM.

By Grace Kingsley.
That charming, Irish Cinderella called, "Irene," is with us once more, with her bright chatter, her charmingly human little yarn, her brilliant songs and dances. In fact, she's more delightful this year than last, if that be possible, and she isn't right along in the class with Cleopatra in that "age does not wither nor custom stale her infinite variety."

"Irene," which is the "Paw of My Heart" of musical comedy, came to the Mason last night. The show has a brilliant leading lady—Patrick Harold, who played the role in New York for a whole year. Others in the cast, too, are from the original company, and the finish of their performances attests that fact. The settings are new and very beautiful, and the chorus, of both girls and men, not only can sing, but has something to sing. You probably know the human little story, about the poor little Irish shop girl, who became a dressmaker's model and married the wealthy hero. And all done so humanly, with the deliciously suspicious Irish mother, the society dame who furnishes Miss O'Dare with a family tree, and all the rest of it.

Dale Winter played the role here last year and made a great hit. However, Miss Harold makes an even more favorable impression. Her voice is exquisitely fresh, she is very pretty, and is even more suited in type to the part than Miss Winter.

Also, she shows that it is possible to sing a song and make a real characterization of it through naturalness of delivery. She doesn't, perhaps, dance as well as Miss Winter.

Her Irish brogue is very funny, and when she told about her father, "who used to drink every thing, and nothing hurt him till he killed him," she brought down the house.

Teddy McManis's Lady Luck, the man dressed as a just business enough to "win" every couple of comedy from it, and his acting is fascinating.

Of course, Mr. Freeman is a Charlie Chaplin sort of person, who does well with the hero character. Henry Coots is possessed of a very big voice, and is magnificent as Bowden.

Louise Worthington and Erica Mackay were pleasing Irish misses, while Booth Howard, George P. Collins, Earl Redding, Jane Kearney, Ursula O'Hara and Helen Duffins did nicely with their respective roles.

The fascinating music by Harry Tierney is all household stuff, and yet the audience demanded over and over again the "Alto Blue Gown" song.

The Talk of the Town, "We're Getting Away With It," and "My Rocker."

Even though you have seen "Irene" once, do not see it this time. Probably it isn't necessary to tell you that. The only fellow that has to be told is the one who has never seen it.

Now that audiences no longer see through the bottom of a glass darkly, managers have got to give them shows like "Irene."

Smooth and Bright.

No more Jolts in vaudeville. No more grand opera singers crooning up alongside the trained monkeys. No more highbrow pianists hobnobbing with the black-and-blue artists of the knockabout.

No more do we get a crick in the neck looking up to some pame star of the legitimate stage, and then next minute a double chin looking down at a fast sidewalk act. Nowadays the best vaudeville acts are like a big room—one act gliding smoothly into another, sometimes overflowing into the next act, indeed.

Colleen Moore.

mainly known as Pantages' Broadway.

The initial production, "Second Hand Rose," which brings to the front one Billie Moody, character comedienne, spoke for the excellency of the cast. The chorus, still unimpaired, with the next production, undoubtedly acquit itself very agreeably.

As a character and singing comedienne, Miss Moody was a winner. She was forced to give five scenes toward the end of the production. Another instant Broadway hit was scored by the Kimball Four, whose harmony and brought much applause. The show was staged by Ted Howard, who incidentally plays an amusing role. It shows careful detail.

Numbers of comedienne were contributed by Sybil Bacon, William Rader, Max Wentworth, Fritz Field, and principal comedienne, Lucille and funny buffoon, indeed, Jerry Witney, Inez Dodson, Viola Teal and the Misses Conway and Bates, dancing entertainers.

Development shown by concert program.

The musical growth of the California Theater orchestra is clearly shown by this week's program at the California Theater, where Carl Kellor is offering three concerts daily. Attendance and applause prove that the public also believes in a musical policy of "better music and more of it."

Conductor Kellor again proved his musicianship with a finely worked-out reading of "Poet and Peasant." Like other of Kellor's compositions, it requires elegant playing, and the great ensemble was well handled and unimpaired at the end of the act. Solo solo was given to Vincent De Robertis, a superb horn virtuoso, who displayed rare technique and unusual ability.

The "Frydole" and "Siciliana," from "Cavalleria Rusticana," by Mascagni, were rendered with a skill that bespeaks good rehearsal and effective ensemble work. Here Kellor shows an innovation, giving the "Siciliana" melody to the soprano saxophone and harp, both behind the scenes. Mr. MacKinnon, a character band leader, gave the "Siciliana" melody to the soprano saxophone and harp, both behind the scenes. Mr. MacKinnon, a character band leader, gave the "Siciliana" melody to the soprano saxophone and harp, both behind the scenes.

The last number proved a surprise. It is a veritable torrent of rhythm, which offers the orchestra a brilliant opportunity to show their alertness and their bump of humor. "Memphis Blues" allowed Kellor to transform his orchestra into a character band, furnishing a southern atmosphere to this syncopated melody, making it both pleasing and thrilling.

SIBELIUS NUMBER TO BE REPEATED FRIDAY.

Owing to numerous requests by patrons of the Philharmonic Orchestra, Conductor Rathwell has decided to repeat the Sibelius Symphony No. 2, in D Major, instead of the Rhapsody Symphony No. 4, as originally announced, for the eleventh symphony pair next Friday afternoon and Saturday evening.

Much interest is expressed over the appearance of Florence Macbeth as soloist. Her remarkable success in prima donna roles with the Chicago Grand Opera Company, and her concert engagements have put the stamp of uniqueness on her ability as an artist, in both recital and opera. This engagement of Miss Macbeth will be her only appearance in Los Angeles this season. Her solo for these concerts will be two Mozart arias, "Ah! lo so," from the "Magic Flute," and "Con Vento," from "The Marriage of Figaro." Her second number will be "Hymn to the Sun" from "Coco d'Or" (Rimsky-Korsakov).

The program contains in addition to the Sibelius Symphony, the Strauss Tone Poem "Death and Transfiguration," and Weber's Overture "Carnival." The Friday afternoon concert begins at 2:15, and the Saturday evening concert at 8:30.

UPLIFT AND ACTION.

BILL HART IN "TRAVELIN' ON" AT GRAUMAN'S.

By Edwin Schallert.
"It's sort of a quiet human-like, most of it, but there's a few times when it becomes table-top action, and taken all-in-all it's my idea of a good picture." This expression from one who was apparently a plainman might be said to hit off "Travelin' On," starring William S. Hart, this week at Grauman's Theater. It is one of Hart's best in theme, and holds considerable interest dramatically as well. My own idea of the title "Travelin' On" as gleaned from watching the seven reels of uplift and action, is that it has some sort of a "hitting-the-trail." That isn't exactly what it implies in the minds of the author and the star, but the subtitle you are told that the hero, J. B., is a stray, who is always on the move—these for "Travelin' On." Incidentally, he's right hand man with his hardware, meaning that he can shoot the ass out of a card.

The plot has to do with the assassin he gives a preacher and his wife in their effort to uplift a wild western community. Of course, the chief interest is in the reform that goes on in the character of the man himself.

Some of the time, though, this sets ever like a dud.

The material of action is used to make a sensible story, however, if you can't take all of it as seriously as it should be taken, perhaps, but the human element is dwelt on strongly in Hart's scenario of his own will for the weal of the religious cause, through the finer love which he learns from the woman.

The picture has a vein of satire against reformers as such, if you want to look to it, and its ending is along pathetic lines, but its principal interest is in the action and the wording of some of the subtitles.

Ethel Grey Terry has the principal supporting role as Susan Morton, the preacher's wife. She troupes excellently, and there is considerable dramatic reality to her scenes with Hart. Hart himself seems less effective in the subtleties than when the action is on. A good reference is furnished by William Mark, while James Farley, Robert Kortman, Brinsley Shaw are all to be credited with convincingness. Mary Jane Irving is quite pleasing in the kid role. Baby Peggy, appearing in person, is greatly amusing, and the scheme is B flat by Chaplin, studies by the same composer, and a group of modern numbers, including a minut of his own.

Mr. Fanning sang an air from "Richard Coeur de Lion," by Grieg. "The Plumber's Song," by Tchaikovsky, "La Tarantella," by Rossini, "Tress," by Oscar Resnais, "The Last Leaf," by Sidney Homer, "The Last Leaf," by Sidney Homer, "The Last Leaf," by Sidney Homer.

The concert was well attended.

HIGH JINKS REVUES AGAIN LIVELY.

The Burbank Theater is presenting its latest comedy gration, "Hot Dog," with the funny characters, Able and Micky, snappy dancing adds much to the entertainment.

Aside from its splendid optical entertainment qualities, the new Bill Jinks revues are a good comedy plot and a number of surprising climaxes. Henry Sherr and Dolly Sterling hold the center of the stage with the character roles. Olga Brooks, donning the somber tones of a Swedish servant, appeals even in that make-up. George Clark is a sort of trouble maker, succeeds in making his audience laugh over the ensuing mix-ups, and Jean Darby is his usual likable friend.

Special numbers are contributed by all principals, and mention of top honors should this week go to Dolly Sterling, who made a number to and to Henry Sherr's school of instruction, where the comedian calls on each girl to do a stunt.

Fruits and Vegetables Prove Great Assets.

Nineteen Twenty-one Was Prosperous Year.

Chamber of Commerce Analyzes Reports.

Figures announced yesterday by the Chamber of Commerce from reports of the local office of the Bureau of Markets are indicative of one of the important reasons why Southern California still continues as the "white spot" in the business map of the United States and of the world. The chamber made the following deductions from the reports collected:

"While the total agricultural production throughout the United States in 1921 showed a marked decrease as compared to that of 1920 not only in valuation, but in actual tonnage, shipments of fruits and vegetables, with the exception of apples, onions and cabbage were larger in 1921 than during the previous year.

"In Southern California the past year's increase was as great as to be of real import. As compared with shipments of 71,541 carloads of all fruits and vegetables in 1920 from Southern California, in 1921, our carload shipments were 81,044—an increase of 13,125 carloads or 27 per cent. This gain is made up by an increase of 14,675 cars of citrus, 462 cars of deciduous fruits and 464 carloads of vegetables.

"Outstanding is the fact that we shipped this past year, nearly 15,000 more cars of oranges and lemons than in 1920. This returned to the grower a somewhat greater price per box so that the total financial return was considerably greater. This fact is of special significance now when some are wondering if our Southern California prosperity is to be subjected to instability by the recent frost damage. It is nothing more than superficial to say the carrying power of the orange grover was enhanced by his returns on the 1921 crop. He can on this account face this year's damage with fortitude.

It is also interesting to note that the total fruit and vegetable shipment from the other fifty counties of California was 31,223 or 167 more cars than were shipped by our eight southern counties. This is a striking illustration of the great productivity of this section."

GRAND JURY PEETE QUIZ INDICATED.

Woman's Statement About Denton Murder Story is Studied by Attorneys.

A county grand jury investigation will probably be included in an attempt to prove Mrs. Lela Louise Peete's version of the slaying of Jacob C. Denton, for which she is serving a life sentence in San Quentin penitentiary.

Details of Mrs. Peete's story, contained in a signed statement which she made last Sunday in the presence of Attorney S. A. Hahn and Mrs. Angela Kaufman, a social worker, will be given to District Attorney Woolwine today. Four depositions from as many persons who are said to possess information corroborating Mrs. Peete's story, will be taken within the next few days.

"I have communicated with two of these persons," Attorney Hahn said last night, "and they have expressed willingness to tell everything they know."

The other two persons reside outside the city, one at San Juan Capistrano. Efforts are being made to locate them. The contents of Mrs. Peete's statement were withheld, but it was understood that it is the same story which she related to representatives of The Los Angeles Times before her departure for San Quentin.

At that time she stated that though she did not slay Denton, she knew the person who did; that the murder occurred on the night of Aug. 1, 1929, instead of on June 2, 1929. Her statement at that time lacked corroboration, but Mrs. Kaufman believes that Mrs. Peete, though she may have knowledge relative to the crime, is innocent of the shooting.

Through Attorney Hahn it was learned that Mrs. Kaufman will strive to corroborate Mrs. Peete's story by the depositions to be obtained from the four persons named by Mrs. Peete.

In a brief statement issued yesterday, Attorney Hahn said that Mrs. Peete had exposed a man as Denton's slayer.

"Mrs. Peete must stay in the penitentiary until such time as the board of parole may deem it proper to release her," he added. "There is no avenue for legal proceedings open to her. She was lawfully convicted by a jury. Mrs. Peete's former attorney invoked the aid of all the courts in her behalf. There is nothing that I can do for her in order to restore her to liberty. Her hope is limited to an appeal to our Governor. I discouraged the plan of going to the United States Supreme Court on the question of the thirteenth jury, because the point raised is without merit."

Attorney Hahn also stated that Mrs. Peete wishes to return to Los Angeles to testify as a State's witness before a grand jury or in court against the man she accuses of the crime if corroboration of her accusation can be secured.

"Mrs. Peete has lost twenty pounds in weight at San Quentin," Mr. Hahn said. "She now looks pale and sickly. Contrary to published reports, she is not engaged in prison labor, such as making aprons. She does no prison work. Instead, she is devoting her time to taking some sort of a commercial course."
